Winter Indoor Track

**Issues of Concern
(legal, playing Rules,
fiscal management,
etc.)**

The NFHS Rules Committee passed a rule change/editorial change submitted by our state for indoor track & field events. The 200 M Dash was officially added to the list (which does not affect our championship event as we have already been conducting the 200 M Dash). The other rule change they accepted was removing the wording "55 meter is the official NFHS distance" which will allow KHSAA to return to conducting the 60M Dash which is heavily preferred by our member schools. This will not change any conversions accepted by Milesplit, only change the 55M to the 60M for the postseason.
