NFHS Summer Meeting

Sessions Attended

Technology Summit, Technology Round Table (x2), All NFHS General Sessions, Luncheon, and Guarding your Inbox (online security)

Takeaways to help Board and Staff

Was happy to be able to moderate the second technology roundtable. The summit, along with both roundtables was definitely Artificial Intelligence-heavy - reflective of the current state of technology as a whole. The consultant for Guarding Your Inbox was excellent. Though we couldn't have a copy of his presentation, I will be able to share that information with our staff (perhaps during our summer retreat). The Summer meeting one of two opportunities per year that I am around my peers.
