NFHS Network Board of Directors Meeting

**Takeaways to help
Board and Staff**

Two days prior to the NFHS Summer Meeting, was able to attend and participate in the NFHS Network Board of Directors. Was able to gather some early information about their recent acquisition of MaxPreps. This will be an opportunity for further integration between all of the platforms that the KHSAA has been providing its member schools there was also a lot of discussion about the future of the network, particularly in light of the fact that the property could, in fact, at some point be sold. This will be nothing but a long-term benefit for the association. We are privileged to be a part of the communication and the building of this continued Advantage for the KHSAA

General Commentary

Good involvement that benefits the Association
