RE: Prime Date Policy

After review of the information provided to the membership to monitor adherence to the KHSAA Board Adopted Policy regarding prime date scheduling of girls' basketball contests, I report the following member schools to have been found not in compliance for 2024-2025 based upon the season-ending schedule as published on the Association website.

Frankfort Christian
Ludlow
McCreary Central
St. Henry District

None of the above schools were also reviewed as non-compliant for last year. Our office will be contacting administrators at the above schools for a detailed report to be submitted at the September Board of Control meeting.
