August 2025

INSTRUCTION

Academic Information

- We had a great week of preparing for the 2025-2026 school year. We started the week with welcoming our newest staff members at the New to the Vue training on August 4th. We then welcomed our entire staff back for our professional development days on August 5th, and 6th. We also had our contract day on August 7th which featured the Back to School Bash. We had a great turnout for that event and it was great seeing our students and families.
- We had 2 device deployment nights for our students to pick up their computers for the school year. They could also pay their school fees and technology fees. As of this report, we only have 30 students that will need to pick up a device on the first day of school. I want to thank Mr. Seward, Mrs. Carr, and Ms. Hoard for all of their work during our device deployment days.
- Our teachers did a great job planning over the summer as they worked on building guaranteed and viable curriculum for each of their content areas.
- We are proud to say this year we will be bringing back FBLA and Student Council to BMHS. Our new Business Teacher, Rebecca Profitt will be leading our FBLA program. Emma Jerdon, our new middle school science teacher will be leading our Student Council program. We are also excited to offer in person Chemistry this year for our high school students with the addition of Mr. Will Shirel.
