Re: Request to reconvene Local Planning Committee(LPC)

Date: September 18, 2025

I am requesting the board to approve the LPC to reconvene to report a finding in moving the swimming pool into a category 4 need from Category 5. The purpose for this finding is that category 5 projects can't use restricted funds(bonded projects) to pay for the project.

SCS has adopted HB 678(2022) and HB 727(2024) which allows extracurricular facilities to be in any DFP priority.

If approved, it will then be sent to KDE and start the process of reconvening the LPC to report the finding. Once the finding is reported it will be sent back to the board of education for final approval of the District Facility Plan.
