Fall Golf

**Issues of Concern  
(legal, playing Rules,  
fiscal management,  
etc.)**

Weather conditions in the spring and summer have caused stress to many golf courses across the state. Concerns have been raised to our office about course conditions at two of our region tournament sites, but the host schools and staff at the courses are confident they will have any issues addressed prior to region tournament play.

This was the determining factor in relocating the state first round event for Regions 1-4 from Drake Creek to Calvert City. We appreciate both courses willingness to host this event, and will look to have Drake Creek host in a future season.

Region Tournaments are scheduled for Sept. 22-4, followed by the state tournament first rounds on Sept. 29-Oct. 1. The final rounds of the state tournament will take place at Bowling Green CC with the girls playing Oct. 6-8, followed by the boys on Oct. 9-11.

**Championship  
Update/Review**

First Round State Sites:

Calvert City CC (Regions 1-4)

Pendleton Hills CC (Regions 5-8)

Winchester CC (Regions 9-12)

This is the final year of the previously established rotation for first round state sites. An application will be shared with the membership for schools/courses to apply for future years with the goal of setting a new 3-4 year rotation starting in 2026.
