Fall Soccer

**Positive Developments
and Highlights**

This year was the first year of playing the finals at a new facility. The Finals were held at the Lexington Sporting Stadium. This is the newest professional soccer stadium in the state located here in Lexington. The owners and staff at LSC were great to work with and there were numerous positive comments about this new venue.

**Championship
Update/Review**

This year saw St. X take the Boys title over Covington Catholic 2-0. For the Girls, it was Sacred Heart over Highlands 3-0. All teams shows great sportsmanship throughout the event and the competition was great.

**Fiscal and Budget
Issues and Review
(attendance, etc.)**

Weather and match ups continue to be the biggest factor in ticket sales in Soccer. With the warm weather on the Boys semifinals, we saw a healthy increase in attendance compared to 2024. However the Girls semifinals, with the constant rain, we saw less people this year compared to that of 2024. Overall, tickets sales showed a slight decline year over year.
