NFHS Section 2

**Takeaways to help
Board and Staff**

It is always interesting hearing what other states are doing. The take away for this year is again we seem to be a state a lot of others look to on how we do things and that is a testament to our all our leadership team. Our voices are highly regarded in these meetings.

General Commentary

It was a great trip and experience to spend time with states that are similar to ours in sports, size and passion from the associations. Opportunities such as these are appreciated and necessary.
