**Championship
Update/Review**

Just a reminder that our State Championship will be on Wednesday, December 10 at the Cornerstone on the campus of the University of Kentucky. It will feature a slightly different lineup of game titles. NBA 2K Basketball will not be a part of the Championship, but has been replaced by Street Fighter 6. Though League of Legends is no longer offered on the state championship league, we are inviting the two furthest advancing teams in the central region league to a final in person showdown.
