Program

## 2025-2026 Participation

Districts	Schools	Teachers	Enrollments
35	41	95	3,220

# College Readiness Program

**C** Current participants  
**P** Previous participants

## Launch Day

The mission of the College Readiness Program (CRP) is to increase **student participation and achievement** in **Advanced Placement (AP®) math, science, English, computer science and capstone courses**.

**AP Exam  
Prep Session**

## CRP Metrics in 2024-2025

37 districts 41 schools 99 classes 88 teachers	22% increase in the number of enrollments compared to 2023-2024	56% increase in the number of qualifying scores compared to 2023-2024
41% of enrollments are economically disadvantaged	20% of enrollments are from non-white populations	86% exam-taking rate

## Notable Achievements

Teachers finishing their second year of participation saw a **34% increase in enrollments** and **48% increase in number of qualifying scores** compared to their first year.

Teachers completing all three years of participation in CRP saw a **26% overall increase in number of qualifying scores** and a **93% increase in number of qualifying scores for economically disadvantaged enrollments** compared to their first year of participation.

From the 2022-2023 to 2023-2024 school years, CRP outpaced the state in **percentage increases in enrollments (5% vs.11%)** and **percentage increases in qualifying scores (8% vs.12%)**.

## 2025-2026 Participation

Districts	Schools	Teachers	Hours Trained
29	54	61	118

## Women in IT Conference

# Computer Science Initiatives (CSI)

**C** Current participants  
**P** Previous participants

*The mission of CSI is to ensure K-12 access to computer science, including artificial intelligence and emerging technologies, by providing innovative professional development for Kentucky teachers.*

**CSTA PD Week**

## Training Teachers Across the Commonwealth (All-Time Metrics)

**162** teachers have earned the Approval for Computer Science (ACS)

**384** teachers have participated in Code.org professional learning

**263** teachers enrolled in first 3D printing course (Computer Science (CS) + Additive Manufacturing)

**73** teachers participated in CS + Engineering professional learning

## Notable Achievements

Hosted the **AI for Every Teacher** online program (winter 2024-2025).

Secured funding for **Computer Science Teachers Association (CSTA) Summer Professional Development (PD) Week** which provided professional learning for K-5 teachers in integrating CS+AI (summer 2025).

Hosted our first **AI Foundations** summer workshop (summer 2025).

Participated in the development of the **CTE Additive Manufacturing pathway** (opened in 2023-2024), which has since served 111 high school students.

Connected students to weather and climate data through **CAPTIVATE-KY** in partnership with the Kentucky Science & Engineering Foundation (KSEF).

2025-2026 Participation			
Districts	Schools	Teachers	Enrollments
17	28	220	8,394

## Access to Algebra (A2A)

**C** Current participants  
**P** Previous participants

Leader Assembly

The mission of A2A is to increase **student achievement** and **growth** in middle school math, as well as **participation** in grade 8 Algebra 1.

LTF Training

## Access to Algebra (A2A) Metrics in 2024-2025

9 districts 16 schools 111 teachers 4,088 enrollments	50% of enrollments are economically disadvantaged	30% of enrollments are from non-white populations
35% of students earned incentives compared to 30% in 2023-2024	23% of students enrolled in Algebra 1 or higher compared to 20% in 2023-2024	30% of students are College Ready compared to 23% in 2023-2024

## Notable Achievements

- Due to Numeracy Counts funding, we have doubled the number of students and teachers we are able to support.
- The Mentorship Program is in its second year and continues to support new teachers or those new to teaching math by providing mentors outside their district.
- Algebra Assist is in its pilot year and aims to empower middle school teachers with the confidence, skills, and community they need to deliver rigorous Algebra 1 instruction.
- Laying the Foundation (LTF) lesson updates and training revisions have begun and are being led by Chasity Lowery, contracted as our new Access to Algebra Content Advisor.

# Thank you!

- Aaron Timmons, Executive Director
- Monique Rice, CSI Program Director
- Annette Williams, A2A Program Director

Teachers who have gone through the training really benefit from it. They have a **deeper knowledge** of the math they're teaching. The programs focus on teaching students the **why of learning**.

- Billie Travis, Scott Co. Public Schools

Computer science can be intimidating, but the workshop has helped me see that as a teacher I'm bringing a lot of what I already know and applying it in a really **new way** that will make me a **better teacher**.

- Kathryn Adams, Jefferson Co. Public Schools

Working with these **leaders and mentors**, they come in and **show** you. It's never just, "Here it is, go do it."

- Rejeana Norris, Warren Co. Public Schools
