

**From:** Mr. Nick Greenup, EIT – CMTA, Inc.

**Date:** December 18, 2025

**Re:** Geothermal Test Bore and Conductivity Test Proposals  
Marion County Area Technology Center Renovation  
Lebanon, KY

To whom it may concern,

CMTA Engineers has received three (3) proposals from geothermal drillers to perform the work as described in the Geothermal Test Bore Request for Proposal dated December 15, 2025. CMTA believes the prices quoted by each contractor are fair. A summary of the bids is below and listed in order of receipt:

1. Geothermal Solutions – \$37,750
2. T&M Drilling – \$23,000
3. Geothermal Earthworks – \$32,000

All three contractors have performed test bores on CMTA projects. CMTA recommends T&M Drilling for this scope of work as they are the low bid and meet all requirements listed in the RFP.

Sincerely,  
Nick Greenup, EIT  
CMTA, Inc.
