RE: Dataseam Presentation

This presentation details a potential partnership with Dataseam. Dataseam is a Louisville-based non-profit that has helped dozens of school districts around Kentucky establish apprenticeship programs for high school juniors and seniors. This two-year program offers students paid work experience, specialized training, and a national certification. It provides direct district funding and new classroom computers based on apprentice participation. These workstations will also contribute to the DataseamGrid, supporting cancer research at the University of Louisville Brown Cancer Center when not in student use.

BULLITT COUNTY PUBLIC SCHOOLS IS AN EQUAL EDUCATION AND EMPLOYMENT INSTITUTION
