NFHS Hall of Fame Screening Committee

**Takeaways to help
Board and Staff**

Kentucky is currently represented on the NFHS Hall of Fame Screening Committee by the Commissioner. This committee's function is to review the numerous applications submitted for inclusion in the National Hall of Fame and determine which group of candidates should be presented to the selection committee as finalists, ultimately leading to their selection. This committee does not select the final inductees, but it is able to provide, as a group of state association representatives, Important feedback on the application process and ensure a lack of political involvement in the selection. This two day meeting was held in Indianapolis and the process used by this committee actually very much mirrors the process used in Kentucky. This continues to help Kentucky ensure the validity of its own Hall of Fame induction ceremony and class.
