

<b>Member School Responding</b>	<b>District</b>	<b>After reviewing all input, my school votes as follows on that submitted draft alignment with no amendments</b>	<b>Comments</b>
North Oldham High School	District 29	No, do not favor adoption	
Oldham County High School	District 29	No, do not favor adoption	By moving Collins into the 29th, this would not be based on a geographic decision for the entire region.
South Oldham High School	District 29	No, do not favor adoption	Any movement needs to be based on geography.
Anderson County High School	District 30	Yes, favor adoption	
			Collins High School is NOT in favor making any changes to current districts OR considering Cornerstone in 29th District.  Collins proposes: 1. Keep Cornerstone in 30th District and have (6) team district in 30th and 31st * Continue things as they are until Cornerstone adds more sports (currently only 3 of 7) and sustains proven years of membership in KHSAA.  2. Move Cornerstone, as the new member school looking for a home, to 29th District. All three Oldham County Schools are welcome to this option and 29th has the 'open spot'.
Collins High School	District 30	No, do not favor adoption	
Cornerstone Christian Academy	District 30	Yes, favor adoption	This is what the 8th Region ADs voted to submit to the Board of Control. There were a handful of schools unhappy with the outcome, but there was no confusion on the subject.
Shelby County High School	District 30	No, do not favor adoption	If other options are available that move Woodford County or Spencer County out of the 30th so we don't have a 6 team district we are in favor of that. If this is the only option then Shelby County High School could be in favor of this to ensure there is fair and equitable opportunity for all sports to progress beyond district tournaments.
Spencer County High School	District 30	Yes, favor adoption	
Woodford County High School	District 30	Yes, favor adoption	
Carroll County High School	District 31	No, do not favor adoption	
Eminence High School	District 31	Yes, favor adoption	Eminence Schools are in favor of this proposal.
Gallatin County High School	District 31	No, do not favor adoption	
Henry County High School	District 31	No, do not favor adoption	The 31st district schools have no issue remaining a 6 team district
Owen County High School	District 31	No, do not favor adoption	
Trimble County High School	District 31	No, do not favor adoption	I would like to see Gallatin stay in the 31st and keep us as a 6 team district.
Grant County High School	District 32	Yes, favor adoption	I'm still in favor of the plan, though I'd be ok with Gallatin staying in district 31 as well. The main reason we moved Gallatin to 32 in the proposal was that we were under the impression that the Board didn't want 3 team or 6 team districts.
Simon Kenton High School	District 32	Yes, favor adoption	
Walton-Verona High School	District 32	No, do not favor adoption	Walton-Verona would like to keep the 32nd district as it currently stands. Walton-Verona was under the assumption that was not a choice in the beginning.
Williamstown High School	District 32	No, do not favor adoption	It is not enough, Simon Kenton and Walton-Verona need to go to the 9th.

<b>OPTION</b>	<b>TOTAL</b>
No, do not favor adoption	12
Yes, favor adoption	7

Member School Responding	District	After hearing all input, my school votes as follows on leaving District 31 intact as it is now.	Comments on D31
North Oldham High School	District 29	Yes. leave intact with six teams	
Oldham County High School	District 29	Yes. leave intact with six teams	Leaving 6 team districts is a reasonable solution allowing for the 8th region to be in tact
South Oldham High School	District 29	Yes. leave intact with six teams	We do not have an issue with six-team districts.
Anderson County High School	District 30	No, do not leave this six-team district	I do not have an issue with this district as aligned because of the school sizes and inconsistent sport offerings, which makes each sport have a seemingly unique competitive balance ; however, a yes vote for this issue will invalidate any argument for moving Collins. District 30's make up and six team inclusion is fundamentally different than District 31. There is an unknown quality to this District because of Cornerstone's inception and intent to create teams beyond BB and Volleyball. That said, if the board of control is seeking to find some sort of inconsistency in this logic, this would be the place to do it. Upon further inspection comparing the 30th and 31st's issues relative to six teams is a false equivalence. That said, if moving Gallatin is the only path of changing out Collins then my vote must reflect that logic, however flawed. It would be more appropriate to move Woodford into the 11th and keep Collins. So much of this is about Boys BB, which is a "reality" that is unfortunate and short-sighted. But if that paradigm must be taken at face value, then we must conclude that Woodford plays with mostly Lexington kids at this point, and the consistency within the District's balance is fraught as a consequence.
Collins High School	District 30	Yes. leave intact with six teams	If the 8th Region is going to support a (6) team district in D31 - why wouldn't we also support 6 team district in D30. Cornerstone is only playing 3 of 7 sports offered - so if things stay status quo D30 would only be six team district in (3) sports and a five team district in (4) sports.
Cornerstone Christian Academy	District 30	No, do not leave this six-team district	We don't think any district should contain six teams (voluntarily or otherwise).
Shelby County High School	District 30	No, do not leave this six-team district	6 team districts hinder an equitable and fair playing advantage for other districts.
Spencer County High School	District 30	Yes. leave intact with six teams	I voted in favor of the proposal to move Gallatin to 32nd and Collins to 29th. Spencer County is not in favor of the 30th district being a 6 team district, and does not support 3 team districts. However if the 31st supports being a 6 team and we can rectify the 3 team issue I can support this request.
Woodford County High School	District 30	No, do not leave this six-team district	
Carroll County High School	District 31	Yes. leave intact with six teams	
Eminence High School	District 31	Yes. leave intact with six teams	While we are in favor of the proposed alignment, however we are also ok with remaining with our current alignment.
Gallatin County High School	District 31	Yes. leave intact with six teams	We chose to be a six team district when we voted yes to allowing Trimble to enter and we wish to remain as is
Henry County High School	District 31	Yes. leave intact with six teams	
Owen County High School	District 31	Yes. leave intact with six teams	
Trimble County High School	District 31	Yes. leave intact with six teams	Having us all as a 6 team district works for us. We are happy with it. We all work well with each other and wish to keep us how we are.
Grant County High School	District 32	Yes. leave intact with six teams	I'm still in favor of the plan, though I'd be ok with Gallatin staying in district 31 as well. The main reason we moved Gallatin to 32 in the proposal was that we were under the impression that the Board didn't want 3 team or 6 team districts.
Simon Kenton High School	District 32	No, do not leave this six-team district	
Walton-Verona High School	District 32	Yes. leave intact with six teams	
Williamstown High School	District 32	Yes. leave intact with six teams	I think the bigger issue is the 3 team district.

OPTION	TOTAL
Yes. leave intact with six teams	14
No, do not leave this six-team district	5

Member School Responding	District	Do you feel it is a competitive advantage in baseball when a district has six participating teams and another has three teams? Does your school favor the Board making independent determinations on district composition where having one six-team district is possibly approved but another is not?	
North Oldham High School	District 29	No	No	No	No	No	No, a Board policy helps with standardization no matter how uncomfortable	The question has come up about an advantage with a three-team district in baseball. As a baseball coach with 20+ years of coaching experience, I can tell you that once you reach the regional tournament, the pitching starts over for every team. There may be a slight advantage in the district tournament with only 3 teams, but from the regional on, there is no real advantage, there is enough rest days for each school to reset their pitching.
Oldham County High School	District 29	No	No	No	No	No	No, a Board policy helps with standardization no matter how uncomfortable	This should be a decision for the region - we are either ok with 3 and 6 team districts or we are not. We should not pick and choose
South Oldham High School	District 29	No	No	No	No	No	No, a Board policy helps with standardization no matter how uncomfortable	It has to be one way or the other. We can have six teams or we cannot. If they are wanting to be a six-team district there is no competitive advantage. They are okay with a six-team district.
Anderson County High School	District 30	Yes	Yes	Yes	Yes	No	Yes, all situations are different	I think all situations are different, but we also must concede that the 8th region is an odd duck geographically. The advantages enjoyed by a three team district far outweighs the problems associated with a six team district.
Collins High School	District 30	Yes	No	No	No	No	Yes, all situations are different	*Collins is fine with (3) team districts and (6) team districts. Around the state seven districts currently have 3 teams. If we are worried about district 29 are we also going to mess with these six other (3) team districts? We don't think it's necessary to reconfigure all those districts just to fit one mold. But then why pick on district 29?  *Collins understands the pitching situation of a three team baseball district. If we want to discuss baseball separately, we can do that. But please don't adjust an entire district based on one sport - baseball.
Cornerstone Christian Academy	District 30	Yes	Yes	Yes	Yes	Yes	No, a Board policy helps with standardization no matter how uncomfortable	
Shelby County High School	District 30	Yes	Yes	Yes	Yes	Yes	No, a Board policy helps with standardization no matter how uncomfortable	6 team or 3 team districts hinder an equitable opportunity for a team/school to progress to the next round of postseason play. If all options are open to create equitable districts Shelby County High School would be in favor of schools moving out of the 8th Region to create equitable team amounts.
Spencer County High School	District 30	Yes	Yes	Yes	Yes	Yes	Yes, all situations are different	
Woodford County High School	District 30	Yes	Yes	Yes	Yes	Yes	Yes, all situations are different	
Carroll County High School	District 31	Yes	No	No	No	No	Yes, all situations are different	
Eminence High School	District 31	No	No	No	No	No	Yes, all situations are different	
Gallatin County High School	District 31	Yes	No	No	Yes	No	Yes, all situations are different	
Henry County High School	District 31	Yes	No	No	No	No	Yes, all situations are different	
Owen County High School	District 31	No	Yes	Yes	Yes	Yes	Yes, all situations are different	
Trimble County High School	District 31	No	No	No	No	No	Yes, all situations are different	When Trimble County was in a four-team district with the Oldham County schools, those schools already had a competitive advantage due to larger enrollments and greater depth, especially in baseball. After our move to the 31st District, the Oldham County schools became a three-team district, but this change did not create any new advantage for them. They had the same ability then—as they do now—to save top pitchers for regional play. Any advantage they have now existed when the district had four teams.
Grant County High School	District 32	Yes	Yes	Yes	Yes	Yes	Yes, all situations are different	The biggest advantage to the 3-team district is the additional rest the top team gets to take advantage of.
Simon Kenton High School	District 32	Yes	Yes	Yes	Yes	Yes	Yes, all situations are different	The more games you have to play in a district tournament only makes it harder on those teams who are competing...especially while some teams will only play one game. Huge competitive edge in baseball with pitching, in basketball with rest time, etc.
Walton-Verona High School	District 32	Yes	Yes	Yes	Yes	Yes	No, a Board policy helps with standardization no matter how uncomfortable	
Williamstown High School	District 32	Yes	Yes	Yes	Yes	Yes	Yes, all situations are different	

OPTION	Yes	No
Do you feel it is a competitive advantage in baseball when a district has six participating teams and another has three teams?	13	6
Do you feel it is a competitive advantage in basketball when a district has six participating teams and another has three teams ?	10	9
Do you feel it is a competitive advantage in soccer when a district has six participating teams and another has three teams ?	10	9
Do you feel it is a competitive advantage in softball when a district has six participating teams and another has three teams?	11	8

Do you feel it is a competitive advantage in volleyball when a district has six participating teams and another has three teams?	9	10
--	---	----

OPTION	No, a Board policy helps with standardization no matter how uncomfortable	Yes, all situations are different
Does your school favor the Board making independent determinations on district composition where having one six-team district is possibly approved but another is not?	6	13

Member School Responding	District	Does your school believe that the ability to host an event in its traditional time frame is important for the Board to consider?	Would your school be open to discussions and considerations of an alternative regional tournament format in the event of an imbalance of geographically placed district teams.	Does your school favor delaying implementation of a solution until more local discussion can be held?	Comments on hosting events, format variations or timelines
North Oldham High School	District 29	Yes	Yes	Yes	There are always ways to schedule creatively to get the games completed by the deadline.
Oldham County High School	District 29	No	Yes	Yes	Having a 5 or 6 team district does not impact the number of nights it takes to complete a tournament. It will only add an additional first round play in game (3 vs 6 instead of only a 4 vs 5)  We are in favor of a super regional format for all 7 sports  Region survey results should be discussed by the 8th region before the board votes.
South Oldham High School	District 29	No	Yes	Yes	There is no difference in a 5 or 6 team bracket if 1 and 2 get a bye. The region should be able to discuss the results prior to any decision being made.
Anderson County High School	District 30	Yes	Yes	No	Six team districts have already baked in their hosting duties, and as such they are not being asked to transition, with the exception of the 30th. As an AD in the 30th, I def worry about weather for Baseball/Softball and time for BB, since we host boys AND girls at the same time.
Collins High School	District 30	No	Yes	Yes	*Collins is VERY MUCH in favor of a Baseball SUPER REGION. Highlighting the best teams in the region instead of losing some due to district competitions.  *If six teams stayed in D30, we would need to add one more night of play to the g/b basketball district tourney - none of the other sports. Girls Volleyball, the other sport played by Cornerstone, has room in the schedule on night one to add an additional game without adding an additional night to entire event.  *Is Cornerstone equipped to host district tournaments with their facility?
Cornerstone Christian Academy	District 30	No	No	No	We already had the discussion. The school(s) who didn't like the outcome may be attempting to muddy the waters of the discussion, but it was already decided. If CCA were geographically the closest to the 29th District, you wouldn't have heard a word from us.
Shelby County High School	District 30	Yes	Yes	No	Shelby County is not in favor of delaying the implementation for more consideration. Adding additional nights is not a problem in sports where weather isn't an issue (basketball vs. baseball). But SCHS is also not sold on changing format. The current format is fine, but the number of schools within the 8th region that could be moved elsewhere is what could help this problem most.
Spencer County High School	District 30	Yes	Yes	No	While we do not currently support a super region format we are open to discussion on the details. Due to our gym capacity we host single sessions during district basketball tournament. Adding a 5th team forced us to start the tournament on Sunday, we do not want the addition of teams to potentially eliminate us to host our district basketball tournament.
Woodford County High School	District 30	Yes	No	No	
Carroll County High School	District 31	No	Yes	No	
Eminence High School	District 31	No	Yes	No	We are in favor of the current district formatting, but would consider alternate options such as Super Regionals.
Gallatin County High School	District 31	No	Yes	Yes	
Henry County High School	District 31	Yes	Yes	Yes	The 31st district has managed 6 team district tournaments for quite a few years and had no issue completing the tournament in the current designated time frame. Regional tournaments as well in the current time frame. I think baseball would be the only sport that a regional format change could make sense.
Owen County High School	District 31	Yes	Yes	Yes	
Trimble County High School	District 31	No	No	Yes	
Grant County High School	District 32	No	Yes	No	
Simon Kenton High School	District 32	Yes	Yes	No	
Walton-Verona High School	District 32	Yes	Yes	No	
Williamstown High School	District 32	No	No	Yes	

OPTION	Yes	No

Does your school believe that the ability to host an event in its traditional time frame is important for the Board to consider?	9	10
Would your school be open to discussions and considerations of an alternative regional tournament format in the event of an imbalance of geographically placed district teams.	15	4
Does your school favor delaying implementation of a solution until more local discussion can be held?	9	10

Member School Responding	District	<p><b>Please share your thoughts and considerations about the placement of teams into districts when they first becomes eligible and are still attempting to build participation, including waiting periods, geography, minimum number of sports, minimum enrollment, etc.</b></p>	<p><b>Please share any additional comments desired.</b></p>
North Oldham High School	District 29	<p>When new small school comes in, they only offer a handful of sports. Cornerstone Christian is only going to offer three sports from what I have been told: men's basketball, women's basketball, and volleyball. It was stated at our last meeting that Cornerstone could not be added to a three-team district because, in essence, it would still be a three-team district. Then logic would say, that if Cornerstone was added to a current 5-team district, it would really still be a five-team district. No reason to upset the entire apple cart when Cornerstone is basically going to be a non-factor in its current size. If Cornerstone grows over the next few years and they are able to offer more sports, then the region can re-visit the realignment issue at that time.</p>	<p>There is no logical reason to move Collins out of their district and break up the natural district rivalry, etc. If the schools in the 30th district are strongly opposed to becoming a six-team district, then Cornerstone should be placed into the 29th district where there is an open spot. The difference in the distance between Collins and Cornerstone coming to the 29th is negligible, so no reason to realign a well-established 30th district for a new, small school when the 29th has room for them. Adding Cornerstone to the 29th district is the easiest, simplest, and most common sense solution.</p>
Oldham County High School	District 29	<p>I think that there is a big difference including a school that is coming in playing 3 sports impacting district/regional play than a school with all 7 established sports. A school only fielding less than 50% of the district championship sports should not impact the entire region. We would be uprooting long standing traditions and district/region alignment for a school participating in 3 championship tournaments for postseason play. When asked at an 8th Region AD meeting, Cornerstone Christian's AD could not tell the group the high school enrollment of his school and only said they hoped to add the additional 4 sports (boys and girls soccer, baseball and softball). They did not have facilities or programs in place according to their AD.</p>	<p>I believe the 8th region should be left alone and remained as is only moving Cornerstone Christian to the 30th region.</p> <p>29th, 31st and 32nd districts would remain in tact</p> <p>As a region, we should either be ok with 3 or 6 team districts or not. We should not say it is ok to have a 6 team in one district but not the other. If we are not and want to have 4-5 team districts throughout the 8th region, we should have to realign the entire region, which may lead to realigning the entire state. Realigning the current teams in the region based on geography was not discussed by the region ADs or the Board of Control.</p>
South Oldham High School	District 29	<p>They should be put in the district that is geographically closest.</p>	<p>Leave it alone. If you are not okay with 3-team districts then the entire region just needs to be re-aligned. If they don't want to re-align the region then there is no reason to have the conversation. Can't have it both ways.</p>
Anderson County High School	District 30	<p>I think we need to be cautious of these small schools who enter. While Cornerstone Christian coming in has highlighted the stark issue with having a 3 team district, we must also recognize that these schools will not always field teams in each sport, even if that is their stated goal. However, if the entrance into our region with these new schools so dramatically illustrates the numerical disparity, then we might be needing to look at a more flexible model in the future, where we have district tournaments (which are culturally important, particularly in Anderson County) but a regional format that allows for growth more readily.</p>	<p>We were tasked, very plainly, with developing a regional model that eliminates the 3 team district. We did that and in doing so opened some wounds. If the BoC goes make on our decisions, after being told the board was keen on us blazing our own path, that would be unfortunate. Those wounds will have been opened for nothing, and our region will feel as if we teeter on the edge of unknown changes and possible unfair competitive balance.</p>
Collins High School	District 30	<p>* A major problem Collins has is 'turning over the entire apple cart' for a new member school that hasn't proven longevity in KHSAA participation or the guarantee they will add more sports. There is no financial obligation or contractual connection to Cornerstone staying in the KHSAA. What happens if Cornerstone decides the KHSAA isn't for them anymore and they want to leave. The 8th region has gone through the pain of moving and adjusting schools for NO SURE BET. Cornerstone has 26 boys and 25 girls enrolled 9-12 grades. Fielding more teams, especially ones like baseball and soccer that take larger numbers of kids, seems unlikely at this time.</p> <p>* If Community Christian (Independence, KY) was added to 8th Region, Region 8 would include 20 teams total. The only other region EQUAL or HIGHER in numbers to that is Region 9 (21 teams). ALL OTHER REGIONS IN STATE have between 14-19 teams in their region.</p> <p>* If trends continue, and the KHSAA increases member schools, we should look at geographical outliers within 8th region and do some shifting. This would highlight how 'non' geographical some of the 8th region really is.</p>	<p>Collins is in favor of no movement at this time. Let things 'shake out' with Cornerstone and evaluate if more schools are/should enter or exit Region 8.</p>
Cornerstone Christian Academy	District 30	<p>It should be done by geography. If main sports (football excluded) aren't classed, what other way can be done without showing obvious favor?</p> <p>Personally, I've been advocating to many schools to make the switch, Community included. I was the driving force behind Heritage (Hopkinsville) joining. I would not continue to do so if larger schools are allowed to dictate alignment.</p>	<p>Geography is the driving force behind alignment, or it isn't.</p>

Shelby County High School	District 30	With the number of schools that have opened since 2015 we feel it may be best to reset the entire association Region 1 - Region 16. This will help with new schools opening to balance the number of schools within a region and geographically where they are located.	Shelby County High School has been a part of the 8th Region almost since its inception. We have seen multiple schools come and go from this region and feel a reset to the entire system may be needed. The 8th Region and others close by keep changing every 4 to 5 years, but to balance travel, number of schools, and equitable opportunity in postseason, a change with the entire association may be best for all schools.
Spencer County High School	District 30	There is no simple answer to the questions, every team creates their own unique circumstances that must be weighed by everyone. It does make it difficult when teams become full members but only participate in a few sports. It may only be a few sports but adding a team to a district at times can have some pretty drastic consequences.	
Woodford County High School	District 30		
Carroll County High School	District 31		
Eminence High School	District 31	We are comfortable about short term placements for new schools while more formal plans can be approved.	We are comfortable about either the proposed plan or keep our current alignment in terms of Eminence. Our biggest fear and fight would be in any consideration that would move us in with the Oldhams. If Trimble was removed from that district due to competitive disadvantages, then Eminence (being even smaller than Trimble) should not ever be considered for moving. If someone from our district would be to move, I believe Henry would be the best option since they are roughly the same size as the Oldham's in terms of their enrollment. Geographically, this might even make more sense than Collins. Thanks for being thorough and soliciting feedback on this important decision.
Gallatin County High School	District 31	I feel that said district where that school is placed should be left in tact, as is, until time is given to see how those small schools will develop. I do not feel it is fair to blow up a district/region for a school who has three to four sports and small numbers. If they are around in a few years, then rediscuss if needed.	I feel that it is in the best interest of everyone right now to leave as is and create a Super Region for baseball and softball. This solves the competitive advantages of the three team district.
Henry County High School	District 31	I think important points to consider with new schools entering is their ability to field and maintain teams in multiple sports. If a school has a limited sport offering even after post season eligibility is established maybe a conversation surrounds those sports that are offered singularly and not an entire change in alignment. I do not think there is a one size fits all when it comes to doing what is best for growing the participation of students athletes at their respective schools.	Through all of my conversations I do think the glaring points of a region realignment are that there is not a one size fits all/blanket rule that can be used to do what is best for each schools particular situation. Considerations have to be made for what is best for growing participation and involvement for students at their respective schools.
Owen County High School	District 31	The number of sport offerings a school has should be a consideration.	
Trimble County High School	District 31	It is difficult to make long-term district placement decisions for newly eligible, small schools when enrollment and sport offerings are still uncertain. Immediate realignment can cause unnecessary disruption, especially if participation or enrollment declines within a few years. Waiting periods and minimum thresholds should be considered before permanent placement.	I appreciate KHSAA for distributing this survey and seeking input from member schools directly affected by these decisions. I remain very appreciative of the decision to move Trimble County to the 31st District several years ago. Since that move, our culture has improved, student confidence has grown, and a defeat mentality has begun to fade. Financially, attendance has increased as our community is more engaged and traveling to see competitive, meaningful games against schools we align with geographically and competitively. The 31st District is a unique situation where all schools work well together, and it simply makes sense culturally, financially, and geographically. Thank you for the continued work KHSAA does and for valuing member school input in this process.
Grant County High School	District 32	Since this is just my second year here at Grant County, I'm not sure if Cornerstone had a "probationary" period, but in Colorado (where I spent the 15 years previously before coming to Grant County) a school had a 2-year probation period where they could play game but not be eligible for any post season competition. This allowed them to show that they could participate in the sports they offered, host at reasonable venues, handle logistics of running events, etc before they became full members eligible for post season competition. It kept some new schools from becoming members of CHSAA and showed that others we're capable of being good members of the association.	My main reason for voting yes for the proposal sent in was that it was the least movement in satisfying no 3-team or 6-team districts. Trimble could have moved back with the Oldhams, but there still would have been 6 teams in district 30. Eminence & Henry County could go with the Oldhams, but you'd have the same situation in 30. I do think there should be at least one school added to district 29 to eliminate the 3-team district. Collins and Trimble could both go to 29, and we'd have districts with 4, 5, 5 & 4.5 teams (Cornerstone being the .5 with only 3 sports to start with.) If you're thinking of Community Christian coming into the 8th Region in the near future and not re-aligning regions completely, that would allow a spot to put them with us in the 32nd without making a 6-team district again. And if Cornerstone adds the sports they're planning on by then, we'd have 4 5-team districts at that point.
Simon Kenton High School	District 32	I think the discussion needs to be at the earliest stages. Waiting until they are eligible for post season play is too late in my opinion. If the 8th region is a landing spot for Community Christian, it might cause people to want to re-align again.	
Walton-Verona High School	District 32	I believe teams should have a probation period when they initially join the association to ensure that they can adequately field teams in a majority of sports.	

Williamstown High School	District 32	<p>If you want these small schools to become KHSAA eligible then you have to let them join after their probation period is up. If they can't field all the teams then so be it.</p> <p>In the 32nd Williamstown is most always the 4 seed in baseball and softball. they can get by with throwing their 3rd or 4th pitcher and still win easily. but every few years we have a competitive team and for us that is what it is about. Don't penalize them for being small.</p>	<p>I would love to see a complete overhaul with region alignment. I have schools in the 8th that I will never schedule for several reasons. 1. Distance Williamstown to Oldham 1hr 15min, North Oldham 1 hr 16 min. and those are big schools that we can not compete with.</p> <p>I would like to see us go to a Class regional and State tournament for Basketball. divided by enrollment.</p>
