NON COMPETITIVE DETERMINATION
SINGLE SOURCE EXPLANATION

Describe how you determined the vendor is a single source?

Documentation requirement for all noncompetitive D&F transactions, including contracts and purchases of products at any dollar amount: Requisitioner must document how they determined that the vendor qualified for noncompetitive purchasing. This explanation may include documenting the efforts to find other vendors who provide a similar service/product and/or a list of services/products reviewed and the specific attribute that made the selected service/product distinctly different. This documentation must be attached to contracts during the routing process and attached to the requisition for purchases of all services/products using noncompetitive purchasing.

Requirement for all purchases of \$50,000 or more: Requisitioner must include evidence of cost center approval. This may be accomplished by attaching the Requisition to Purchase form to the Munis requisition or by attaching an approval email from the cost center head. Document negotiation efforts to receive the best price for the service/products being procured.

What specific criteria/criterion is/are necessary for this product or service?

This service delivers an intentional, research-informed curriculum that integrates physical activity with social-emotional learning, led by trained coaches who model and explicitly teach critical life skills. Through structured movement, reflection, and guided discussion, girls build competence, confidence, and strength of character while learning strategies they can apply across academic, social, and personal contexts. The program emphasizes care and compassion for self and others, fosters positive relationships with peers and trusted adults, and empowers participants to make meaningful contributions to their school, community, and society.

What steps did you take (i.e. research) to determine this was the only vendor available?

To determine that this was the only vendor available, we conducted a review of comparable programs that integrate intentional curriculum, physical activity, and trained coaches focused specifically on girls' social-emotional development. This included reviewing local and regional providers, and national evidence-based programs.
