

Board Report

Jim Seward, Technology Director
March 2026

KAST (KySTE) Conference

March is the month of this conference. KAST, formerly KySTE, is expecting over 2,000 educators from across the state. Bellevue will be represented. I am looking forward to learning and sharing as much as I can to help our district!

Technology Plans

It is that time again to start our tech planning. I am working with Mrs. Middleton and building leadership to create our next plan!

Summer

Planning continues for summer projects to continue to move our district forward. Two big changes coming are new Chromebooks in first grade. Also, a new phone system to improve our district communication system.
