Calendar Changes

- Since the amended calendar was approved, we missed two additional days. These days have been added to the end of the year.
- Based on survey results from staff, we DID NOT remove any days from spring break. Students and staff still have the entire week off (April 6th - 10th).
- As of now, the last day for students will be Friday, May 29, 2026.

If we miss additional days for weather or sickness, are you in favor of using spring break days?
