

## 1. INTRODUCTION

The No Kid Hungry School Nutrition Grant Opportunity will provide funding to school districts to maximize federal child nutrition programs to ensure children have access to healthy meals. Funds are intended to support initiatives that increase participation in the School Breakfast Program and/or expand non-congregate summer feeding models, but may also be used to support other programs, including lunch and SNAP.

### **NO KID HUNGRY GRANTING PRIORITIES**

No Kid Hungry is committed to addressing the systemic and structural inequities disproportionately impacting historically under-resourced communities. No Kid Hungry will prioritize funding to school districts in the following communities:

- Communities where at least 60% of students are eligible for free and reduced-price school meals
- Rural and urban communities where schools/school districts face unique challenges in addressing hunger.
- Communities experiencing extreme economic hardship, determined through multiple data points.

### **USE OF FUNDS**

Funds are intended to support school districts in implementing a strong and sustainable plan for maximizing participation in school meal programs, with a priority on the School Breakfast Program and Summer Non-Congregate meal programs. Strategies may include:

- Expanding access with Breakfast After the Bell programs such as Breakfast in the Classroom, Grab and Go to the Classroom, and Second Chance Breakfast.
- Promoting awareness of meal availability to students and families, especially for free and reduced-price eligible students.
- Innovative strategies that increase participation in the School Breakfast Program.
- Promoting and supporting enrollment of SNAP.
- Supporting partnerships with other school districts and/or local community-based organizations to increase access to meal programs.
- Ensuring maximum student participation and improving meal quality in the Summer Food Service Program (SFSP) and Seamless Summer Option (SSO)
- Promoting awareness of non-congregate meal availability to students and families

Budget requests may include:

- Meal service supplies and equipment needed to serve breakfast and summer non-congregate meals, such as: grab and go carts, insulated coolers/warmers, packaging equipment and supplies, refrigerators, and retrofitting existing equipment to meet new needs.
- Technology requests, including point of service machines.
- Additional expenses as needed.

Please see your state's specific Call for Proposals for a list of funding restrictions for this grant cycle.

**I read the Use of Funds and understand the variety of items that can be covered using grant funds.**

KY School RNC 26

Yes

### **CORPORATE FUNDING**

Grants may be funded through corporate partners working with Share Our Strength. You will be notified upon receipt of the grant award if a corporate partner is sponsoring the grant award.

**I understand that my award may be sponsored through corporate partners working with Share Our Strength.**

Yes

## 2. APPLICANT DETAILS

Organization

Powell County Board of Ed

How would you like your organization's name listed on public-facing materials?

Powell County Board of Education

### **SCHOOL NUTRITION DIRECTOR**

Are you the School Nutrition Director of your School District?

Yes

### **SUPERINTENDENT**

Are you the Superintendent of your School District?

No

Please provide the Superintendent's information below:

Sarah Wasson

(606)-663-3300

sarah.wasson@powell.kyschools.us

### **PERSON AUTHORIZED TO SIGN A GRANT AGREEMENT LETTER**

*If awarded funds, this would be the person who will receive and sign the grant agreement.*

Sarah Wasson

Superintendent

(606)-663-3300

sarah.wasson@powell.kyschools.us

### 3. USE OF GRANT FUNDS

In this section, No Kid Hungry would like to learn more about the programming that will be impacted specifically by No Kid Hungry grant funding.

Please provide a concise description (2-3 sentences) of the project for which you will be using No Kid Hungry grant funds. (Maximum Characters: 1,500)

We want to expand our current summer food service program to feed more kids in Powell County. I feel we currently are not reaching all kids with the setup we are doing. We are feeding by mobile routes and by feeding non-congregate, we will reach many more kids. It will provide meals to kids that will allow parents/guardians to pick up weekly meals and not have to meet the mobile route each day. With the funds, we hope to purchase needed portable breakfast carts to help with distribution, signage for distribution and labor costs if needed.

Please select how No Kid Hungry grant funding will impact the child nutrition programs offered in your district.

- **Maintain existing program** - funds will be used to ensure existing meal service continues with no reduction in average daily participation in school meals; OR to or maintain the level of outreach/service in the school community (e.g. replace or upgrade equipment, staffing to maintain existing service, etc.)
- **Expand programming or implement a new service model** - funds will be used to increase average daily participation in school meals and/or launch a new meal service model; OR to increase the level of service provided within the school community (e.g. equipment to implement a new Breakfast After the Bell model)
- **No Kid Hungry grant funds will not be used to impact this program** - funds awarded through this grant will not be used to maintain or expand this program

School Breakfast:	Maintain existing programming
School Lunch:	Maintain existing programming
Summer Meals (non-congregate meals served at no cost to all participants):	Expand programming or Implement a new service model
SNAP Outreach, Enrollment, or Services:	Maintain existing programming
Other:	Maintain existing programming

Please describe the other program(s) No Kid Hungry funding will be used to support.

We will expand our SFSP by using the non-congregate model to allow parent/guardian meal pickup one time weekly for kids. They will be given 7 days worth of breakfast and lunch.

Please describe 1-2 desired outcomes for how this project will help your school district expand participation and/or improve the programs you have listed above, including how grant funds will support these outcomes. Outcomes should reflect your intention for the proposed program and could be either quantitative or qualitative.

## KY School RNC 26

### Outcome 1 (Maximum Characters: 32,000):

The desired outcome is to expand our existing program from mobile to non-congregate. This will hopefully reach a lot more of our children ensuring they receive 7 days worth of breakfast and lunch. Being a rural community makes it hard to reach all areas in need. By taking meals out on mobile routes we are only able to reach certain areas. With the non-congregate feeding, we can hopefully have parents/guardians come to us for pick up and only have to come once a week and get balanced nutritious meals for students to have at home during the summer.

### Outcome 2 (Maximum Characters: 32,000):

We are hopeful with the grant funds we can purchase grab and go carts to setup 3 stations for parents/guardians to go through and be given a dry, frozen and cooler bag of nutritious food for 7 days. We will also utilize the large utility carts to move additional foods from the kitchen to refill the grab and go carts. I am planning on purchasing shirts for staff/volunteers to wear on food distribution day so that we are very visible and helpful to those parents/guardians picking up meals. I also want to purchase signage/banners to put up in town and on site to ensure we promote the handout dates.

How do you anticipate average daily participation of school breakfast will change across your district in SY25-26 based on changes made with grant funding? Please select the goal that feels most realistic to your district and know that No Kid Hungry is available to support your district beyond just providing funding.

Increase participation by less than 10%

We want to understand how this grant aligns with your district's broader school meals and/or child nutrition programming. Please describe how the proposed project will support your district's child nutrition priorities and initiatives that aim to maximize school meal participation. (Maximum Characters: 5,000)

The goal is to feed as many kids in our community as possible, providing them with 7 days of nutritious breakfast and lunch during the summer. Many students could not benefit from our mobile routes since we had so many rural areas in need. However, with the non-congregate meal pickup, we should see numbers drastically increase.

Please provide the anticipated start date of the project you are proposing with the use of grant funds. The start date indicates the beginning of project implementation. Funds should be at least partially spent and equipment should be ordered in order for your programming to begin.

Start Date: 06/08/2026

List other organizations, if any, you are working with on the project and the role of each. (Maximum Characters: 30,000)

FRYSC will help with handout of meals if needed and also in notifying families of meals that will be provided. FRYSC directors will help us in ensuring we are reaching kids that are in most direct need that may have been on backpack programs throughout the school year.

KY School RNC 26

We will also coordinate with our school librarians because our district was awarded the BOOST grant to provide books/readers.

**SCHOOL BREAKFAST**

Please select each school in the district where you will be implementing changes to the school breakfast program through this grant. For each school, provide responses about that school's breakfast program.

School	Address	Current Breakfast Model	Future Breakfast Model	Breakfast Offered Free to all Students?
--------	---------	-------------------------	------------------------	---

We are eager to hear more about other strategies your district is using to increase participation in school breakfast. Please select any of the following strategies your district is implementing. If you are using a strategy that is not listed, please select 'other' and type your response in the text box that appears.

Improved menu options (e.g. incorporating local or culturally relevant foods, scratch cooking, "build your own" items, etc.);Packaging and branding (e.g. create a brand for your meal program, creatively display meal offerings, use bento-style boxes, etc.)

For any/all of the strategies that you selected above, please share more details about how this strategy is used within your district. (Maximum Characters: 2,000)

We are offering a new yogurt parfait this year that the kids seem to love, we offer biscuits and gravy on Fridays that all kids look forward to, we added some new menu items such as pancake poppers.

Please provide any other details about your school breakfast programs in your district. This can include timing, locations, or any other details that were not captured in the above questions. (Maximum Characters: 2,000)

We offer breakfast at all five schools from 7:30-8:10 daily with menu choices consisting of 2-3 items daily. We always offer a hot and a cold breakfast. There is always a grab and go so that kids can take with them if they choose to class.

**SCHOOL LUNCH**

Please provide details about your school lunch programs. This can include timing, locations, or any other details about how the school lunch program is implemented across your school district. (Maximum Characters: 2,000)

We offer school lunch at all 5 schools. We have 2-3 choices daily at all schools. We offer box lunches, hot lunches, pizza line, grab and go bag lunches. We offer a variety of fruits and vegetables daily and allow kids to take as many as they want. We use a rotating lunch menu that consists of a 3 week cycle.

KY School RNC 26

## SUMMER MEALS

For summer 2026, No Kid Hungry is prioritizing grant funding to support summer meal programs offering non-congregate meals in rural communities. Are you planning to serve summer meals through Summer Food Service Program (SFSP), Seamless Summer Option (SSO)?

Summer Food Service Program (SFSP)

If you serve in rural areas, do you plan to operate through USDA's rural non-congregate option, if approved?

Yes

Have you been approved by your state agency to serve non-congregate meals this summer?

Not Yet - I have submitted or plan to submit my application to sponsor rural non-congregate meals, and am waiting to learn if I've been approved

Please provide the anticipated start/end dates of summer break within your school district or community for summer 2026.

Start Date: 06/08/2026

End Date: 07/26/2026

How many weeks total do you anticipate operating your non-congregate summer meals program this summer?

7 weeks

What non-congregate meal distribution model(s) does your organization plan to use at any point during your summer 2026 operations? Select all that apply.

Walk-up or Curbside Distribution - children/families arrive at a site location to pick up meals

Which of the following reimbursable meal types do you plan to serve this summer through non-congregate meal distribution? Select all that apply.

Breakfast;Lunch

How will non-congregate meals be served this summer? Select all that apply.

Bulk food items - ingredients and food items to be prepared/cooked at home

Please share your district/organization's plan for program operations at sites offering ONLY non-congregate meal distribution, including the meal types being offered, timing of distribution, location (e.g. schools,

KY School RNC 26

community centers, libraries, etc.), any activities being offered alongside meals, etc. (Maximum Characters: 10,000)

*Non-congregate meals are served to either children or caregivers on behalf of their child and can be consumed away from the site location. Non-congregate meal distribution models can include walk-up or curbside distribution, distribution along bus or mobile routes, direct home delivery, etc. Please check with your state agency to ensure your planned distribution type/model is allowable in your state.*

*If your organization will not have any sites distributing ONLY non-congregate meals, please type N/A.*

We plan to feed non-congregate style with meal pickup from parents/guardians. We will have a google form that parents will fill out ahead of time for pre planning purposes. We plan to prep and pack on Mondays and Tuesdays with meal hand out on Wednesdays. We will offer breakfast and lunch for 7 weeks and it be handed for 7 days each week. The timing of the distribution will be between the hours of 4:00-6:00 to allow parents the greater opportunity to pick up after work hours. The site will be at Powell County High School. We will have parents/guardians line up and meals handed to them as they come through the line in cars. We will verify age of child by verifying birthday's. We will offer a dry bag, cold bag, frozen bag and milk. We will offer books/reading from special guests at a table set aside as our BOOST grant with KDE comes along.

Please share your district/organization's plan for program operations at sites offering both congregate AND non-congregate meal distribution at the same location including the meal types being offered, timing of distribution, location (e.g. schools, community centers, libraries, etc.), any activities being offered alongside meals, etc. (Maximum Characters: 10,000)

*Sites offering both congregate AND non-congregate meal distribution could include ones where lunch is offered for children to be consumed at the site location and each child receives a to-go breakfast for the next day. Please check with your state agency to ensure your planned distribution type/model is allowable in your state.*

*If your organization will not distribute both congregate AND non-congregate meals at the same site, please type N/A.*

N/A

We understand that program models may shift throughout the summer to accommodate family schedules and community needs. Please share more about how your program model may change throughout summer 2026 (e.g. offering congregate meal service during summer school for 4 weeks, and then distributing non-congregate meals via parent pick up for the next 6 weeks once summer school ends). If you do not anticipate your model to change throughout the summer, type N/A.

N/A

We would like to learn more about the scope of your summer meal distribution efforts, including, the number of sites by types, how often meals will be distributed throughout the week, the number of meals being served per

KY School RNC 26

child at each distribution, and projected total meals served for the entire summer.

If your sites do not all follow the same schedule, tell us the average number of days per week that meals will be distributed across all of your sites. (For example, if 3 sites served meals 5 days a week and 2 sites served meals 3 days a week, the average is 4 days per week. Use the average figure in the table and round to the nearest whole if needed.

Although No Kid Hungry is prioritizing grant funding to support non-congregate meal programs, we are interested in learning more about the full scope of your summer meals program including congregate meal sites. Please complete the table below with a number in each box. Enter 0 if you will not serve any meals at a given site type.

	Number of sites (count each physical location once)	How many days per week are meals served / distributed? Use average if needed.	How many meals will be given to each child on each distribution day? Include every individual meal (ex. 5 day breakfast + lunch bundle = 10 meals)	How many total meals do you estimate you will serve this summer? Sum all meals delivered across each site.
Sites offering ONLY congregate meal distribution (meals served and eaten on site)	4	1		250
Sites offering ONLY non-congregate meal distribution (meals distributed to be eaten off-site)	1	1	14	39,200
Sites offering both congregate AND non-congregate meal distribution at the same site location (some meals served and eaten on site, while additional meals are distributed to be eaten off-site)				
<b>Total Summer Meal Sites:</b>	<b>5</b>			

We understand that the opportunity to offer non-congregate summer meals in rural communities is still relatively new for many sponsors, and we are eager to learn more about the barriers sponsors may face in

## KY School RNC 26

maximizing non-congregate meal service in their communities. Please share more about opportunities you see to expand access to meals in the communities you serve and the barriers you've encountered in reaching them. This can include regions, site locations, and/or distribution models that were deemed not allowable by your state agency. (Maximum Characters: 1,000)

The biggest challenge that we have faced is living in a rural community and not being able to serve all kids. With the regulations requiring kids be present to eat on site it makes it a challenge for us. We have had a mobile route for several years but even yet it is still hard to cover the whole community. By offering non-congregate summer meals, we should be able to reach lots more kids and offer 7 day a week breakfast and lunches. We also think handing them out in the hours that parents are most available will help also.

Please list any community organizations you plan to partner with to operate your summer program and describe the role these organizations will play in your program (e.g. marketing, distribution support, etc.) Enter N/A if not applicable. (Maximum Characters: 10,000)

N/A

If you are an existing non-congregate summer meals sponsor, how is your proposed summer program for this year different from years past (e.g. will you open new sites, start new distribution models, extend hours of site, serve more days of meals, etc.)? If you are a new summer sponsor, please write "N/A". (Maximum Characters: 5,000)

N/A

## **SNAP OUTREACH, ENROLLMENT OR SERVICES**

No Kid Hungry prioritizes SNAP outreach and application assistance efforts that focus on enrolling underserved families and children. We encourage efforts that target outreach to likely eligible families, support families with navigating the application process, and/or lower barriers to SNAP access.

*Households is a common way the SNAP program groups people who are applying together to receive SNAP. This encompasses the total number of households you will reach with your outreach activities (i.e. hosting an event, mailing letters, etc.). Children are defined as ages 0-18. This encompasses the total number of children you will reach with your outreach activities (i.e. hosting an event, mailing letters, etc.).*

Please select the outreach strategies you are planning to use to increase access to SNAP. Select all that apply.

Host events and/or incorporate into school activities; Work with community members as promotional partners

Please select any application assistance strategies you are planning to use to increase enrollment in SNAP. Select all that apply.

Refer families to applicable state agency or community partner

KY School RNC 26

Please tell us more about why you are choosing those outreach and assistance strategies. What makes them the right fit for your community? (Maximum Characters: 1,000)

We have a great SNAP office in our community that we can partner with and help offer assistance to families if needed.

We can also partner with our FRYSC employees to help with this.

If applicable, describe how your project will address systems or policy change within the Supplemental Nutrition Assistance Program (SNAP). Share the challenges your project targets, the strategies you'll use, and the anticipated impact on SNAP participants and stakeholders. Enter N/A if not applicable.

- **Systems change** refers to efforts to improve how organizations, processes, or structures function to create equitable outcomes. This could include creating new processes to streamline SNAP referrals, establishing data sharing for targeted outreach and cross program enrollment, establishing a process for community centered design/co-creation in a program, training for staff to incorporate SNAP outreach or assistance into their work
- **Policy change** involves altering laws, regulations, and/or institutional rules to address gaps or inefficiencies.

N/A

Please estimate the number of households that will be reached through your district's outreach activities during the grant period. If unknown, use 0.

Please estimate the total number of households that will apply for SNAP during the grant period as a result of your district's efforts. This can include households that your district has directly assisted with applying as well as those who applied independently but were influenced by your outreach and support efforts. Please note that No Kid Hungry uses this projection to estimate the total number of households that will be enrolled in SNAP as a result of your district's efforts.

25

Is your district able to track the number of households that were successfully enrolled in SNAP as a result of your efforts?

No

What additional support do you need from No Kid Hungry to ensure the success of your program? Select all that apply.

Resources and best practices to support outreach efforts;Community engagement support

## CHALLENGES

Select up to three of the common challenges that are affecting participation in your program and/or limiting its success, and how you will respond to these challenges.

*Please note, you are required to submit at least one challenge.*

Challenge	How will you respond to this challenge? We know not all challenges have easy solutions. Please indicate how No Kid Hungry can help you to address this challenge.
Lack of equipment	We will have to purchase portable carts for meal pick up
Reaching all students/children	Non-congregate will allow for 7 day bulk food pickup and reach more kids in our rural community

Which of the following tactics, if any, will your district use to raise awareness about your program this year? Select all that apply.

Encourage teachers, administrators, coaches and other staff to promote meals; Post flyers or information about school meals availability throughout the school; Provide information on the school meals on the website or social media outlets; Record a robocall to inform parents about school meals; Parent text messages; Social Media

KY School RNC 26

#### 4. BUDGET REQUEST

Grant funds are intended for your organization to use to help address barriers and challenges that will enable you to serve more meals through your nutrition programs or reach more families through your outreach and enrollment efforts. Please use the table below to provide details on how the grant funds will be used, including plans for procurement if necessary. We prefer to fund items that will help sustain your programs beyond the grant year.

Budget Category	Estimated Quantity	Estimated Cost	Purpose of Cost	Proposed Budget Description
Food Service Equipment	4	\$8,000.00	Funding new costs	We need grab and go carts to use outside for our parent/guardian drive through during non-congregate pickup.
Program outreach (flyers, banners, ads, etc.)	10	\$500.00	Funding new costs	Advertisement of SFSP to promote non-congregate feeding site at our high school throughout community.
Other	10	\$25.00	Funding new costs	Shirts for staff to wear during meal handout so that they are visible and easily identified for parents/guardians.
Other	2	\$1,000.00	Funding new costs	Large utility carts to haul/load and serve meals to parents and guardians their non-congregate meals.
Other	14	\$1,000.00	Funding new costs	Bags to use for packing SFSP non-congregate meals. They will get 7 days of breakfast and lunch one time per week for 7 weeks in the summer.
		<b>\$10,525.00</b>		

## 5. COMMUNITY CHARACTERISTICS

We recognize that hunger impacts each school community differently. In the following section, please provide information about the characteristics of your school community and explain how your proposed work is designed to meet the specific needs of the students and families you serve. [See how No Kid Hungry is prioritizing grant funds.](#)

### COUNTY / COUNTIES IMPACTED

### OUTREACH & ENGAGEMENT

Please describe plans to engage your school community to identify barriers and/or preferences that exist within your community and in the development of your proposed program. Examples could include engaging teachers in program operations, engaging parents or students in meal preferences, addressing language barriers, etc. For support, please see resources including [Let Your Community Shape Your Program](#) and [Conversation Starters For Designing More Inclusive School Meals Programs](#). (Maximum Characters: 1,000)

By offering the SFSP non-congregate program, families are better able to access the program and are more excited about the meals we serve, and consequently, a greater number of children receive healthy and nutritious food. This allows us to offer meals later in the day when parents/guardians are getting off work so they can pick meals up and not have to meet our mobile route each day creating barriers to get the meals. In the rural community that we live and serve it makes it hard to reach all kids that truly need meals in the summer. By offering the non-congregate meals, I am super excited to think we will reach so many kids this way. Our school FRYSC partners will help our program by offering to hand out meals and also identify students that many need meals. If we have language barriers, we can partner with our ESL director to ease that barrier between parents/guardians and food service staff.

How will you design your program to meet the unique needs identified within your school community?  
(Maximum Characters: 5,000)

The needs of a rural community can be met by serving non-congregate meals at one site and allowing parents/guardians to do meal pickup. We have previously done mobile meals and it has created barriers for pickup each day and we have missed many kids this way. We will have meal pickup at one central school location one day per week between hours that are accommodating to parents and guardians. We want to see that no child goes hungry in our community. We want to work to ease all barriers for hunger.

## 6. CURRENT NUTRITION PROGRAMS

No Kid Hungry is interested in understanding your district's holistic plan for nutrition and emergency meals programming provided to students and families both at school and at home during the upcoming school year.

How many total schools are currently in your district?

5

What is your current total district enrollment for the 2025-2026 school year?

1,868

Which of the following programs are currently offered by your district or do you plan to offer during the 2025-2026 school year, regardless of No Kid Hungry funding? Select all that apply.

School Breakfast; School Lunch; Summer Meals (congregate meals served at no cost to all participants)

During SY25-26, which of the following reimbursement models do you plan to use to serve meals? Select all that apply.

NSLP/SBP through CEP or Provision 2

Are you concerned about covering all of the operation costs in your school district this school year?

Yes

Based on your school district's current financial standing, how will your program be impacted if grant funding is not awarded? (Maximum Characters: 15,000)

Funding is stable currently, but I know that it will take extra money to get the SFSP non-congregate program off the ground with new purchases. We will have to have some items in order to make it happen so we will have to take a look at funds to ensure we can proceed.

### CEP

Will your school district participate in CEP in the 2025-2026 school year?

Yes

Will all schools in your district participate in CEP in the 2025-2026 school year?

Yes

KY School RNC 26

How is CEP currently implemented throughout the district?

All CEP schools grouped together with one ISP

## 7. HISTORIC SCHOOL MEALS PARTICIPATION

No Kid Hungry is interested in understanding what nutrition programs your district offered last school year as a baseline. If your district's historical meal data is not already in our system you will be asked to provide participation data points from the previous school year. If there is historic data already entered, please confirm or correct as needed.

During the 2024-2025 school year, which of the following programs and reimbursement models did you use to serve meals? Select all that apply.

NSLP/SBP through CEP or Provision 2

### SUMMER MEALS

Are you a first time SFSP or NSLP Seamless Summer sponsor?

No, my school district has acted as an SFSP or NSLP Seamless Summer Sponsor in previous years

What year did your school district first begin serving summer meals?

2000

Did your district serve non-congregate meals last summer?

No

We would like to learn more about the scope of your summer meal distribution efforts last summer. If your sites did not all follow the same schedule, tell us the average number of days per week that meals were distributed across all of your sites. (For example, if 3 sites served meals 5 days a week and 2 sites served meals 3 days a week, the average is 4 days per week. Round to the nearest whole if needed). Please complete the table below with a number in each box. Enter 0 if you did not serve any meals at a given site type:

	Number of sites. Count each physical location once.	How many days per week were meals served/distributed? Use average if needed.	How many total meals did you serve last summer? Sum all meals delivered across each site.
Sites offering ONLY congregate meal distribution (meals served and eaten on site)	10	5	9,362
Sites offering ONLY non-			

KY School RNC 26

<b>congregate meal distribution (meals distributed to be eaten off-site)</b>			
<b>Sites offering both congregate AND non-congregate meal distribution at the same site location (some meals served and eaten on site, while additional meals are distributed to be eaten off-site)</b>			

## 8. ADDITIONAL CONTACTS

Please indicate all contacts associated with this application and their primary role as well as any additional roles they play, as defined below. Designating a Reporting Contact is required. All other roles are optional. You may also give access to this application and any subsequent grant reports. **Please make sure to give your reporting contact access.**

Reporting Contact: Person who will be responsible for reporting grant progress on behalf of the organization. This contact will receive quarterly email reminders to submit online report forms. *Please note: Only the Reporting Contact will receive these email reminders*

Name	Primary Role	Additional Role(s)
Laura Young	Applicant	Reporting Contact;Point of Contact;FNS Director

## 9. UNDERSTANDING GRANT REQUIREMENTS

If awarded funding, I understand I will be required to:

- Expend the grant award for the purpose(s) approved in grant award letter by the deadline stated in the grant letter.
- Submit four quarterly reports for a full year grant. Specific reporting requirements will be communicated at the time of grant award notification. Sample reports are coming soon!
- Permit a representative from No Kid Hungry to visit my program at a convenient date(s) to see my program in action.
- Cooperate, if asked, with a representative from No Kid Hungry to publicize the grant award and how it has contributed to the success of my program.
- Provide Share Our Strength the right to include the name, location, and website of my school district, along with a brief description of what funding is supporting, on the online No Kid Hungry Grants Map to promote the great work my school district is doing.
- Understand that grants may be funded through corporate partners working with Share Our Strength and the No Kid Hungry Campaign. You will be notified immediately if corporate partners are sponsoring this opportunity.

I agree

Laura Young <laura.young@powell.kyschools.us>

Wed, Mar 11, 2026 at 2:56 PM

Hello Laura,

Thank you for submitting an application for a No Kid Hungry grant. Your application is currently under review and you will hear from our team once funding decisions have been made.

You can also check the status of your application on your dashboard by logging into the [grants portal](#). Thanks for all that you do, and we appreciate your patience!

Sincerely,

The No Kid Hungry Grants Team
