

Scotty, the founder of the Kindness Club, has been actively brainstorming and implementing ideas to improve our school culture. He has created bulletin boards featuring kindness messages and examples of how everyone can participate. In addition, he starts each morning by greeting students with a smile, music, and occasional treats, helping to set a positive tone for the day.

The club is focused on promoting kindness throughout the building and encourages all students to think about meaningful ways they can show kindness to others each day.

We are proud of the leadership and initiative being demonstrated and look forward to seeing the continued growth of this effort.
