Spring Track and Field

**Positive Developments
and Highlights**

All 21 regions are set, officials assigned and schools finalizing schedules/details.

**Championship
Update/Review**

We continue to plan and prepare for this springs state championships. The 2026 State Track & Field Championships Presented by UK HealthCare will compete earlier this year due to a conflict with the host site. The meets will take place at the University of Kentucky on May 21 (Class 1A), May 22 (Class 2A), and May 23 (Class 3A). Each day will begin at 9 AM.

**Officials
Update/Review**

We have worked with Arbiter to use the officials assignments for track & field this year. This should allow for a smoother transition for our Athletic Directors to process payment of officials after completion of the meet.

**Staff and Worker
Update**

If interested in working the state track & Field meet, please contact Sarah Bridenbaugh.
