State Government Bar Association (CLE)

**Takeaways to help  
Board and Staff**

I was recently asked to present at the State Government Bar Association CLE in Frankfort. The focus of the presentation was First Amendment law in and education setting as well as the topic of Transgender participation and matters before the US Supreme Court.

**General Commentary**

This meeting and presentation helps create awareness within the education and state government communities of the KHSAA's efforts at providing participation opportunities for students across the Commonwealth. As a result, the KHSAA has more value recognition and hopefully credibility in these communities.
