To: KHSAA Board of Control

Subject: Proposed Athletic District Realignment Recommendation

Dear Superintendents, Principals, and Athletic Leaders,

I respectfully submit the attached proposal outlining a recommended athletic district realignment designed to improve geographic efficiency, competitive balance, and operational sustainability for participating schools. This recommendation reflects careful consideration of travel demands, scheduling challenges, and the need for equitable competition across districts.

The proposed adjustment seeks to establish more balanced district membership while maintaining fairness in postseason opportunities and reducing logistical burdens placed on student-athletes, families, and school systems.

Thank you for your time, leadership, and continued commitment to interscholastic athletics.

Respectfully submitted,

Kristie Combs

Athletic Director

Buckhorn School

## **Proposed Athletic District Realignment**

Prepared for Superintendents, Athletic Directors, and Principals

Buckhorn School

### **Purpose**

This proposal recommends a district realignment designed to improve geographic efficiency, competitive balance, and operational sustainability across participating athletic programs.

### **Current Structure**

Currently, district alignment includes one five-team district (53rd), one four-team district (54th), one three-team district (55th), and one four-team district (56th). This imbalance creates scheduling inconsistencies, increased travel demands, and competitive disparities.

### **Proposed Realignment**

Move one team from the five-team district (53rd) into the current four-team district (54th) and reassign Buckhorn to the 55th district. Reassign one geographically aligned team from the four-team district into the three-team district. This adjustment will result in four balanced four-team districts.

### **Anticipated Benefits**

- Improved geographic efficiency reducing travel time and transportation costs.
- Enhanced competitive balance through equal district sizes.
- Operational consistency in scheduling and administration.
- Improved student-athlete experience and program sustainability.
- Balanced baseball pitch count management across districts.

### **Implementation**

Pending collaborative discussion and formal approval, implementation could begin with the 2027 athletic season.

### **Conclusion**

This realignment proposal supports fiscal responsibility, equitable competition, and strategic long-term planning.

Respectfully submitted,

Kristie Combs

Athletic Director

Buckhorn School

**Approval and Endorsement Page**

The undersigned acknowledge review of the proposed athletic district realignment and indicate their support for continued discussion and collaboration regarding potential implementation.

"Points Won" are total points made by team.  
 "Points Lost" are total points made by opponents.

\*District records indicate teams are aligned in the same district and do not necessarily correspond to official district ranking.

\*\*RPI is updated hourly. Teams missing scores at that time are not included. RPI stands for "Ratings Percentage Index", a statistical means to measure a team's strength relative to other teams, based largely on the strength of their schedules. This is an informational tool in all sports and will be used to determine host sites for rounds in the football playoffs. For full details regarding the RPI, see the RPI link on the KHSAA website at <https://khsaa.org/rpi-ratings-percentage-index/>.
