

Board Report

Jim Seward, Director of Technology

May 2026

End-of-year

We are collecting all student and staff devices before the end of the year. We will be preparing to roll out new Chromebooks for summer school and then the 26-27 school year.

New Dual Credit Devices

I am excited that we will be purchasing new computers for our Gateway/NKU students this summer. Gateway/NKU devices cannot be Chrome (like we use for everyone else). With the state slowly migrating away from Windows, I decided to purchase our first round of Macbook Neo's for our students. I am looking forward to their excitement to receive a new device.

Summer

The Tech Team will be extremely busy this summer. New access control project at BMHS. New telephone system for the entire district. New password control systems. Device refresh. And I am sure there will be many other projects!
