

CIPS Star Proficiency 2025-2026

The following pages highlight the growth of CIPS students on STAR throughout the 2025-2026 school year.

Star Reading and Star Math are Computer-Adaptive Tests (CAT) which serve as the universal screener for all CIPS students 3-12 in reading and K-12 in math. This screener is used to gain an accurate view of the student's abilities in reading and math so instruction can be planned to meet student needs and to monitor progress over time.

Star Curriculum-Based Measures (CBM) provide short, direct measures of specific foundational skills in reading and math, allowing for detailed monitoring of progress and identification of specific needs for students.

CIPS Elementary Star Proficiency 2025-2026

Star Reading

	Fall '25	Winter '25	Spring '26
