Powell County (495) Public District - FY 2027 - District Funding Assurances - Rev 0

*** The KETS program requires that districts complete and submit an updated technology plan on a yearly basis. Successful technology plans align the criteria in these ten assurances with the overall education improvement objectives. It is critical that technology planning not be viewed or treated as a separate exercise dealing primarily with software, hardware, applications and connectivity. There must be strong connections between the foundational components of the education technology itself and the professional development, curriculum resources and effective uses by teachers, students, and school leaders.**

1. The local school district establishes clear goals and a realistic strategy for using education technology to improve education through digitally-connected teaching and learning. The Digital Learning Guidelines, as provided in the Master Plan for Education Technology, should be referenced when selecting or creating developmentally appropriate digital learning resources for instruction, as well as online and blended learning courses in Kentucky schools.	* Yes
2. The local board of education agrees to conform to the guidelines for filtering, Internet content management, caching, and auditing technologies regarding student and staff Internet access as provided in the Master Plan for Education Technology, including the implementation and maintenance of approved filtering and caching technology in the district for all students, teachers and administrators. The local school district agrees to adopt an acceptable use policy (AUP) and/or a responsible use policy (RUP) in accordance with the guidelines for acceptable use policies as provided in the Master Plan for Education Technology. This AUP and/or RUP includes addressing the nine elements of digital citizenship as identified by the International Society for Technology in Education for all students, teachers and administrators. The AUP/RUP contains language compliant with the Children's Internet Protection Act (CIPA) which will prohibit access to objectionable materials, including sexually explicit materials, and shall include, but not be limited to, parental consent for student Internet use, teacher supervision of student computer use, auditing procedures to determine whether education technology is being used for the purpose of accessing sexually explicit or other objectionable material, and provide for the educating of minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, cyberbullying awareness, and response.	* Yes
3. The AUP/RUP also contains provisions that prohibit students, faculty, staff and others with network access from using district resources to establish Internet email accounts through third party providers or any other non-standard electronic mail. The local school district agrees to follow the KETS electronic mail product and design standards. These guidelines communicate the basic product and design standards for statewide electronic mail as incorporated by reference into the Master Plan for Education Technology.
