

1. We are currently interviewing candidates for an MSD and Preschool teacher for the 2026-2027 school year.

Roles and responsibilities of Special Education Teachers:

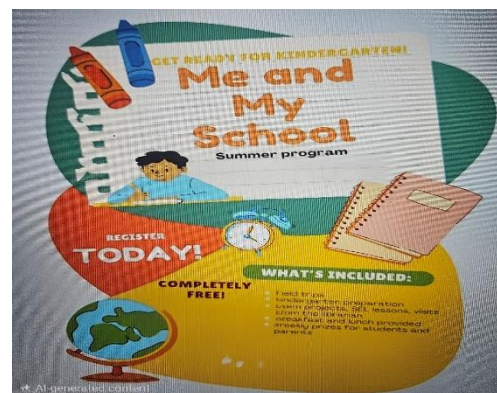

- Provide instructional activities appropriate to meet each child's IEP goals and specific objectives.
- Collect data on an on-going basis for monitoring student progress in meeting IEP short-term objectives.
- Provide a stimulating and conducive learning environment.
- Design and plan a successful learning experience for each child, considering each student's preferred learning modality and unique motivational needs.
- Design and organize materials needed to meet each student's success level.
- Design and implement successful classroom behavior management techniques and programs as needed.
- Implement/monitor individual behavior management techniques and programs as needed.
- Schedule students into regular classes as outlined in their IEP.
- Consult formally and informally with classroom teachers on a routine basis to monitor student performance and behavior in their regular classes.
- Serve as a consultant to regular teachers in developing intervention strategies prior to or during the referral/evaluation process.
- Assist in identifying special education students through classroom behavior observations and through conducting formal and informal assessments in suspected areas of academic weakness.
- Assist in arranging annual review meetings within one year of the previous ARC meeting and coordinate a mutually agreeable time with other ARC members.
- Participate in ARC meetings and assist the committee in the development of the IEP and placement decisions.

2. I have submitted the 2026-2027 IDEA budget as well as 2025-2026 end of the year Indicator 11, Indicator 12, and Medicaid reports.

3. The Me and My School Program is in full swing and going well. This program helps students transition into kindergarten and become familiar with the classroom. They are going on their first field trip this week.
4. Little Lions Camp is also in full swing and going well. This program is for returning or incoming preschool students to build and maintain skills over the summer.

Our students are being provided with a summer full of fun and learning!

5. I am working on 2026-2027 contracts for service providers such as Physical Therapy, Occupational Therapy, Vision Teacher, School Psychologist, etc., to provide services to our special education students. Once the proposed contracts have been received, they will be presented to the board for approval.
