(Acceptable/Responsible Use Policy)

The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

SAFETY PROCEDURES AND GUIDELINES

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media and authorized communication system(s). Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Guidelines and procedures should encourage details on how the District implements and facilitates digital learning tools and portable/mobile technologies to foster ubiquitous access for staff and students, emphasizing always-on, everywhere digital opportunity and empowering Districts and schools to fully understand digital access beyond the campus. With such District implemented resources, the guidelines for acceptable and responsible use shall still apply, regardless of the time, place, and means of utilization.

The District shall support teacher efforts in taking ownership of digital citizenship skills and educating their students in the same skills to foster a responsible, safe, secure, and empowered digital learning environment. Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access, District-managed systems and accounts, and personal devices that are permitted to access the District's network, shall be implemented that effectively address the following, regardless of the time, place, and means of utilization:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including "hacking" and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minors' access to materials harmful to them.

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate its initial Internet safety measures.

Access to Electronic Media

PERMISSION/AGREEMENT FORM

All applicable procedures and guidelines resulting from this AUP/RUP shall be readily available and for use by students, parents/guardians, faculty, staff and other to whom access is granted. A written parental or legal guardian request shall be required to opt-out of or rescind access to electronic media involving District technological resources. Or if applicable procedures require, a written parental request may be required to prior to the student being granted independent access to electronic media involving District technological resources. This document shall be kept on file as a legal, binding document.

The required permission/agreement materials, which shall specify acceptable uses, rules of online behavior, access privileges, and penalties for policy/procedural violations, must be acknowledged by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. In order to opt-out, modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

ARTIFICIAL INTELLIGENCE

The District recognizes that Artificial Intelligence (AI) and digital technologies are rapidly evolving tools that can enhance teaching, learning, productivity, and creativity. Consistent with the District's Instructional Vision, Mission, and Goals, KCSD supports the intentional, ethical, and responsible use of AI to strengthen and enhance high-quality instruction, deepen student learning, and support employees while maintaining a clear commitment to student thinking, academic integrity, and data privacy. The District is committed to equitable access to technology and learning opportunities. The District shall provide ongoing professional learning aligned to effective and ethical use of AI, integration with standards based teaching, and data privacy and digital safety. The District will develop and maintain administrative procedures to implement this policy, establish and communicate a list of approved AI tools and platforms, provide guidance for schools, staff, students, and families and monitor implementation and address concerns.

Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one's duties.) Each employee is responsible for the security of his/her own authentication credentials.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.
