INTRODUCTION

CODE OF ACCEPTABLE BEHAVIOR AND DISCIPLINE PURPOSE

The Code of Acceptable Behavior and Discipline includes the rights and responsibilities of the school community, a range of disciplinary responses, and policies and codes of Hopkins County Schools. The Code of Acceptable Behavior and Discipline not only applies to traditional in-person students, but also to students participating virtually. All members of the school community, including students, parents and guardians, principals, school staff and the district office, have rights and responsibilities that support a strong school community. This Code is intended to act as a guide to ensure students are treated fairly but be flexible enough to address individual student behavior incidents. Disciplinary responses focus on promoting positive relationships, intervention strategies and the use of suspension only when deemed absolutely necessary.

SCHOOL CLIMATE AND CULTURE

Hopkins County Schools has adopted Positive Behavioral Intervention & Supports (PBIS) to enhance school climate and culture across the district. PBIS is a research-based model that studies have shown to improve student academic and behavior outcomes. Our schools strive to ensure all students have access to effective behavioral practices and interventions. PBIS provides a framework for analyzing school-wide behavior referrals to make decisions and solve problems based on their individual school needs.

Successful PBIS implementation will help us:

- Have more engaging, responsive, preventative, and productive learning environments.
- Improve classroom management and address disciplinary issues based on data analysis.
- Improve supports for students whose behaviors require more specialized assistance.
- Maximize academic engagement and achievement for all students.

Parents and students will notice PBIS in our schools when they see and hear each school's clearly defined expectations for all school settings and by the rewards students can obtain by meeting those expectations.

PBIS is the behavior component of a Multi-Tiered System of Supports (MTSS) that provides schools with a framework for utilizing high quality, evidence-based instruction, intervention, and assessment practices to provide all students with a level of instruction and support that is matched to their academic and behavioral needs. Social-emotional support is also provided to students through various support systems and programs.

MTSS is built upon three tiers of intervention:

- Tier 1 interventions refer to services all students receive in the form of academic and behavioral instruction. Tier 1 provides school-wide and class-wide supports and interventions available to all students to prevent problem behaviors, encourage prosocial behaviors and address the unique academic, behavioral and social-emotional needs of students in a particular school.
- Tier 2 interventions are provided for students who need more student-specific instruction and support. These services may be provided in small groups both in and out of the classroom. The purpose of Tier 2 instruction and supports is to improve student performance and prevent further negative impacts on learning and social development.
- Tier 3 interventions provide intensive supports that are matched to the specific needs of an individual student. These services may be provided individually or in small groups. The purpose of Tier 3 instruction is to help students overcome significant barriers to learning academic and/or behavior skills required for school success.

When a student does not make adequate progress in developing grade level skills and data supports a suspected disability, the school may request parent permission to conduct an evaluation to determine eligibility for special education services. In addition, parents have the right to request an evaluation at any time. Referrals must be made in writing to building principal or designee. Following receipt of the referral, a meeting will be conducted to determine if

referral concerns and student data support a suspected disability. If data supports a suspected disability, consent to evaluate will be requested. If data is inconclusive, additional data may be requested. If data does not support a suspected disability, an evaluation will not be conducted.

Upon entering district or school facilities, all visitors and parents shall report to the administrative office, provide photo identification and obtain a visitor's pass. Students are not allowed to bring visitors to school. CONTAGIOUS DISEASES AND PARASITES

A parent, legal guardian, or other person or agency responsible for a student shall notify the student's principal if the student has any medical condition which is defined by the Cabinet for Health Services in administrative regulation as threatening the safety of the student or others in the school. The notification shall be given as soon as the medical condition becomes known and upon each subsequent enrollment by the student in a school. The Principal or designee shall notify the student's teachers in writing of the nature of the medical condition.

INFECTION CONTROL

If any student is known or suspected to have or be infected with a communicable disease or condition for which a reasonable probability for transmission exists in a school setting, the Superintendent or designee may order the student excluded from school. DISCIPLINARY RESPONSES

PREVENTION STRATEGIES

Building positive relationships with students – Research shows that positive relationships help children learn. We know that students are more likely to succeed when they feel connected to others in their community, and are less likely to act out in ways that cause disruption to the school environment. Acknowledging appropriate behavior is one way staff develop positive relationships with students.

Clear classroom rules and procedures – In addition to school-wide expectations and common area procedures, each teacher has developed classroom expectations and procedures. Setting rules, limits and consequences also promotes positive relationships with students.

Effective classroom management strategies – The implementation of research-based strategies which supports the development of positive behavior, reduces discipline problems, and promotes a climate of greater productivity, safety, and learning.

Tier I PBIS implementation – Systems, data, and practices establish the foundation for delivering regular, proactive support and preventing unwanted behaviors; emphasizes prosocial skills and expectations by teaching and acknowledging appropriate student behavior.

RESOURCES AND INTERVENTION STRATEGIES

To help students conduct themselves appropriately, prevention and intervention strategies may be used prior to or in addition to any disciplinary response to student behavior. Not all strategies listed are implemented at every school/grade level.

Behavioral Intervention Plan: An approach to correcting inappropriate or disruptive student behavior through a plan designed by school staff to offer positive behavioral interventions, strategies and supports. This plan is appropriate for students with and without disabilities.

Counseling: Provides guidance to help students resolve issues and develop social skills needed to succeed in school.

Functional Behavioral Assessment: Involves gathering information about students' inappropriate or disruptive behavior and determining approaches that school staff should take to correct or manage student behavior. This information is used to develop a Behavioral Intervention Plan for the student.

Individualized Education Program (IEP) teams: Includes groups of individuals who are responsible for identifying and evaluating students with disabilities; developing, reviewing and revising IEPs for students with disabilities, Functional Behavioral Assessments and Behavioral Intervention Plans; and determining the placement of students with disabilities in the least restrictive environment.

Mentoring program: Involves pairing students with mentors (a counselor, teacher, fellow student or community member) who help their personal, academic and social development.

Parent outreach: School staff informs parents or guardians of their children's behavior and seeks their assistance in correcting inappropriate or disruptive behavior. Outreach made in writing or by telephone is intended to make parents aware of students' behavior, task completion and achievement, and can include a request for parents to accompany students to school.

S.T.O.P. Tipline: The Hopkins County Schools' district website offers a link to this tipline for anonymous reporting of bullying, violence and other risky behaviors. Information submitted on the tipline is forwarded to the district office and school administrative staff for notification. Upon tipline notification, the school administrative staff addresses the report and necessary actions are taken to resolve any issues.

Substance abuse counseling services: A list of available substance abuse counseling services will be provided to parents/guardians for student behavior related to substance abuse. Cost of counseling would be the family's responsibility.

Student Success Team: Usually consists of teachers, interventionists, a district representative and psychologists, who help develop prevention and intervention techniques and alternative strategies to address identified concerns. When student behavior requires intervention, parents, school staff and the principal may request that the Student Support Team develop a plan to address the behavior.

Check-in/Check-out system: This is a Tier II, group-oriented intervention that provides increased positive adult contact with frequent feedback. Daily home-school communication is provided, with positive reinforcement contingent on meeting behavior goals.

Threat Assessment Team: Consists of a group of school personnel who convene to identify, evaluate, and address threats or potential threats to school security.

Trauma Informed Care Team: Consists of a group of school personnel dedicated to understanding and addressing the impact of trauma on students and staff.

Student Transition Team: Consists of a group of school personnel dedicated to assisting students and families when students enter the school setting from alternative settings.

LEVELS OF DISCIPLINARY RESPONSE

When principals and school staff respond to student misbehavior, they are expected to take into account the age, health, decision-making ability and disability or special education status of the student; the appropriateness of the student's academic placement; the student's prior conduct and record of behavior; the seriousness of the offense and the degree of harm caused; and the impact of the incident on the school community.

Appropriate disciplinary responses include, but are not limited to, the following:

Classroom Discipline: Teacher-implemented discipline measures.

Conference: May involve students, parents, guardians, teachers, school staff and principals in discussion about student misbehavior and potential solutions that address social, academic and personal issues related to the behavior.

Detention: This is extra time spent before, during or after school engaged in a constructive activity. The school is not responsible for transportation.

Transportation Guardian Contact: Bus disciplinary procedures will reflect board policy and follow KDE guidelines/guidance based on legislative updates.

In-School Removal: The exclusion of a student within the school building from his or her regular education program. This is a structured, well-supervised instructional program. Special Education services will continue in this setting. Students assigned to this program will be in an educational environment totally isolated from their peers. Assignment to In-School Removal restricts students from taking part in extracurricular activities or being on school grounds after regular school hours. The privilege of participating in extracurricular activities will be reinstated at the completion of the assignment.

Friday/Saturday School: The purpose of Friday/Saturday School is to provide a positive, worthwhile educational experience and a meaningful behavior deterrent for students who have violated Code of Acceptable Behavior and Discipline regulations. The aim of the program is to prevent the loss of instructional classroom time.

Out-of-School Suspension: The temporary removal of a student from school for a specified time, not to exceed 10 consecutive school days. A suspended student will not represent the school, participate in any extra-curricular activities

sponsored by the school or appear on school property during the suspension.

A student facing suspension must be given oral or written notice of the allegations, an explanation of the evidence, and an opportunity to respond if the student denies the allegations.

In-District Removal: Placement which allows students to continue to progress in the general curriculum. The Hopkins County Day Treatment (HCDT) program's mission is to assist students in improving their self-control and self-respect. Placement in this program allows youth to continue their education and receive treatment. Special Education services will continue in this setting. Assignment to In-District Removal restricts students from taking part in extracurricular activities or being on school grounds after regular school hours.

Expulsion: The removal of a student from his or her regular school program by the Board of Education for up to a calendar year. The student is also not allowed to be on any school property or to attend any school function. A student may only be recommended for expulsion if suspension is inadequate to address the behavior; the behavior has seriously endangered the health, welfare or safety of other students or school personnel; or the student's continued presence in the school constitutes a significant safety risk.

SPECIAL EDUCATION Suspension or Expulsion of Students

KRS 158.150 (7)

The suspension and expulsion of exceptional children, or students who are currently referred for evaluation, will follow guidelines developed by the Individuals with Disabilities Education Act, Department of Education, Kentucky State Law, and Hopkins County Schools District Special Education Procedures.

Suspension of exceptional children, as defined in KRS 157.200, shall be considered a change of educational placement if:

1. The child is removed for more than 10 consecutive days during a school year; or
2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than 10 school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.

If disciplinary consequences being considered will result in more than 10 days of removal from school, a manifestation determination must be conducted as follows:

The Admissions and Release Committee (ARC) shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary. If the ARC determines that an exceptional child's behavior is related to his disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the ARC determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However, educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of 10 days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of the ARC cannot agree upon a placement and the current placement will likely result in injury to the student or others.

DUE PROCESS

A student facing suspension must be given oral or written notice of the allegations, an opportunity to hear the evidence, to respond if the student denies the allegations, and notice and hearing before the student is removed from the school.

Note: a student who poses a danger to persons or property may be removed immediately with the notice and hearing following as soon as possible. **Board Policy 09.431**

BUS DISCIPLINE

Riding a school bus is a privilege provided to students in Hopkins County. Video surveillance on school buses may be used as evidence to resolve disciplinary issues.

All Special Education guidelines will be followed.

Bus disciplinary procedures will reflect board policy and follow KDE guidelines/guidance based on legislative updates.

REMOVAL OF STUDENTS

School administrators, teachers, or other school personnel may immediately remove or cause to be removed threatening or violent students from a classroom setting or from the District's transportation system pending any further disciplinary action that may occur. Students may also be removed from the classroom due to investigations, pending charges, or court involvement.

Threatening or violent behavior shall include, but not be limited to:

- 1. Disrupts the classroom environment and education process or the student challenges the authority of a supervising adult.
- 2. Verbal or written statements or gestures by students indicating intent to harm themselves, others or property.
- 3. Physical attack by students so as to intentionally inflict harm to themselves, others or property.

The Principal may establish (school) procedures for a student's removal from and reentry to the classroom when the student's behavior disrupts the classroom environment and education process or the student challenges the authority of a supervising adult. In addition to removal, the student shall be subject to further discipline for the behavior consistent with the school's code of conduct.

Removal of students from a bus shall be made in compliance with 702 KAR 5:080. Bus disciplinary procedures will reflect board policy and follow KDE guidelines/guidance based on legislative updates.

Each school shall designate the site(s) to which employees may remove students from a classroom setting and the employee(s) who will supervise the student at the site.

When teachers or other personnel remove a student, they shall complete and submit a form to document the removal and the causes as soon as practicable. The Principal/designee shall review the removal as soon as possible to determine if further disciplinary action is warranted or if the student is to be returned to the classroom.

Per KRS 158.150, a student who is removed from the same classroom three (3) times within a thirty (30) day period shall be considered “chronically disruptive” and may be suspended from school and no other basis for suspension shall be deemed necessary.

At any time during the school year, for a student who has been removed from the classroom the Principal may require a review of the classroom issues with the teacher and the parent, guardian, or other person having legal custody or control of the student and determine a course of action for the teacher and student regarding the student's continued placement in the classroom.

At any time during the school year, the Principal may permanently remove a student from a classroom for the remainder of the school year if the Principal determines the student's continued placement in the classroom will chronically disrupt the education process for other students.

When a student is removed from a classroom temporarily or permanently, the Principal shall determine the placement of the student in lieu of that classroom, which may include but is not limited to:

- Another classroom in that school; or
- An alternative program or setting, which may be provided virtually, as approved by the Superintendent.

Any permanent action by the Principal shall be subject to an appeal process in accordance with Policy 09.4281/Grievances.

Drugs/Alcohol

It is the desire of the Hopkins County Schools to help students who recognize that they have a drug problem and who seek help by coming to a counselor or administrator. These students shall not be suspended. Hopkins County Schools' designee will be contacted to help find assistance for drug addiction.

When there is reasonable suspicion a student has violated the Use of Alcohol, Drugs and Other Prohibited Substances policy, the following steps will be taken:

1. Hopkins County Schools' designee will be contacted to report the violation and/or request drug testing.
2. Drug testing consent will be sought. Witness' signature is required with the optional phone verification.
3. A student suspected of drug and/or alcohol abuse is required to submit to testing within 24 hours. The Drug Testing Consent Form and the Substance Abuse Intervention Process list the procedures to be followed if a suspected student's drug-alcohol test is positive. (See appendix.)
4. If drug testing consent is denied, the student is presumed guilty of the offense and the appropriate actions are taken, including discipline of the student and notification of law enforcement officials.
5. The drug test will be administered on site unless extenuating circumstances warrant otherwise.
6. Parent/guardian shall be notified of the test results.
7. If test is negative, but other sufficient information has been received as well as admission of offense, discipline actions appropriate to the offense will still be taken.
8. From the date of the offense, the student may be periodically drug tested.
9. A positive test resulting from a school investigation may be cause for the immediate suspension of the student from school or placement in an alternate setting.
10. The Hopkins County Schools' Substance Abuse Intervention Process will be utilized.

Students assigned to Hopkins County Day Treatment shall be subject to random drug/alcohol testing for that school year as part of the agreement for enrollment in the program.

Drug/Alcohol (or look-alike) Use, Possession, and/or Transfer:

First-time offense for use, possession and/or transfer of alcohol and/or drugs or look-alike alcohol or look-alike drugs may result in a suspension from school, pending a 45-day alternate placement determined by the Superintendent or designee with parent notification. Drug counseling may be required for students.

Second-time offense for use of, possession, and/or transfer of alcohol and/or drugs and/or look-alike alcohol or look-alike drug products may result in a suspension from school, pending a recommendation of long-term alternate placement determined by the Superintendent or designee with parent notification. Drug counseling may be required for students.

For a third offense within the same school year, the principal shall recommend to the Superintendent or designee that expulsion procedures be initiated and forwarded to the Hopkins County Board of Education.

In all drug/alcohol cases, an attempt shall be made to notify parents/guardians immediately to ask them to come to the grounds to remove the student from the premises. Proper law enforcement authorities will be notified. If the incident involves a student with disabilities, an Administrative Admissions and Release Committee (AARC) must be scheduled to convene within five (5) school days after the suspension. Further action would be determined by the AARC.

Over-the-Counter:

First-time offense for possession, use or transfer of over-the-counter drugs may result in the following:

- In-school Removal or Friday/Saturday School with parent notification.
- Student(s) will be informed that all over-the-counter drugs should be placed in the school office for access during the school day.
- Students will be informed that if a similar incident occurs, they may be suspended.

Please Note: Because of the differences in maturity of elementary students, elementary principals may enforce drug/alcohol policies in a less restrictive manner than is outlined in this section. Board Policy 09.423

(For information on the district's Random Drug Testing policy, please see the appendix.)

Tobacco and Related Products

Use, distribution, intent to distribute, and/or possession of tobacco products, electronic nicotine delivery devices or vapor products are strictly prohibited while on property owned or operated by the Board, inside Board-owned vehicles, at bus stops, and during school-sponsored trips and activities. **Board Policy 09.4232**

Any student who violates **Board Policy 09.4232** on Tobacco and Related Products may be subject to counseling and disciplinary action as outlined in the matrix and be required to complete a nicotine dependence intervention program.

If a student under the age of twenty-one violates this policy, then the District will confiscate the alternative nicotine products, tobacco products, or vapor products and:

1. For the first incident, the school counselor or other school-based mental health services provider shall provide to the parent or guardian and the student evidence-based, age-appropriate nicotine cessation information to include but not be limited to materials, programs, and referrals for treatment;
2. A second incident shall result in providing information listed above and disciplinary action as determined by the Board and included in the District Code of Acceptable Behavior and Discipline; and
3. Third and subsequent incidents may result in school discipline and/or alternate placement, determined by the Superintendent or designee. The school shall provide the opportunity for a student to complete an evidence-based, age-appropriate nicotine education program during an in-school suspension.

Telecommunication Devices

While we recognize that cell phones and other telecommunication devices are in common use, they may present a serious safety concern and/or distraction to learning. During the 2025 legislative session, Governor Beshear signed HB 208 which amends KRS 158.165 and requires local boards of education to establish a policy prohibiting a student's use of a personal telecommunication devices (including the use of cellphones) during instructional time, with exception to:

- use during an emergency,
- for instructional purposes as directed by a teacher,
- when authorized by a teacher, or
- any device a student is authorized to use pursuant to the Individuals with Disabilities Education Act, the Americans with Disabilities Act, or the Rehabilitation Act of 1973.

Telecommunication devices should not be visible and should remain inactive during the school day unless under the direct supervision of school staff for an approved specific purpose. This begins with arrival and ends with departure from the school campus at the end of the school day. The same rule applies for field trips during regular school time. In addition, the Transportation Department requires that telecommunication devices are not to be observed and must remain inactive while on the school bus in the mornings and afternoons.

The school is NOT responsible for LOST or STOLEN telecommunication devices.

Pursuant to board policy 08.2323 Acceptable Use Policy – Access to Electronic Media, students who refuse to sign the required acceptable use documents or who violate district rules governing the use of district technology shall be subject to the consequences outlined within this document. **Board Policy 09.4261** This policy, as well as all other board policies, may be found online at <https://policy.ksba.org/Chapter.aspx?distid=53>.

Assault

If a student is involved in a physical altercation, pending an investigation, the student may be charged by the school resource officer (SRO) with assault. In addition to charges, the student will receive school-issued discipline. A second physical altercation within the same school year that leads to assault charges may result in an alternate placement as determined by the Superintendent or designee.

ATTENDANCE

All students are expected to be in attendance daily.

All students attending school must remain on the school grounds during the school hours including the lunch period. The principal may excuse students to attend to official business when accompanied by a faculty member. Any student who plans to leave school during the day for any reason must get permission from the principal or designee. Leaving school grounds without authorized check-out constitutes a WITHDRAWAL from school and requires the parent and/or guardian to accompany the pupil when re-entering school.

Before a student can leave school during the day, a parent must either send a signed note or come in for the student. If a signed note is used, parental permission may be subject to verification through a phone call. If a parent desires another person to pick up his/her child, the principal must receive a signed note from the parent giving that person such permission. That person must be listed as an emergency contact on the student's file in the office.

Students who drive to school must first have a permission slip signed by their parent or guardian. All student drivers shall present evidence to the principal of a valid driver's license plus liability insurance on the automobile. Student drivers shall not be dismissed in a manner that will interfere with the safe and timely departure of school buses. **Board Policy 09.123**

KENTUCKY COMPULSORY ATTENDANCE LAWS

Except as provided in KRS 159.020, each parent/guardian or other person residing in the state and having in custody or charge any child between the ages of six and 18 shall send the child to regular public school for the full term that the public school of the district in which the child resides is in session, or to the public school that the Board of Education makes provisions for the child to attend. A child's age is between six and 18 when the child has reached his sixth birthday and not passed his 18th birthday.

Beginning with the 2015-2016 school year, students between the ages of six and 18 shall enroll and be in regular attendance in the schools to which they are assigned and shall be subject to compulsory attendance. No written permission for withdrawal shall be required after the student's 18th birthday.

The residence of the child is the governing factor rather than the residence of any of the relatives. When the child's residence is within the same district as his/her guardian during all the school year, then the child is required to attend school in this district. (1955 OAG 37.765)

All attendance guidelines listed below are subject to change due to state updates/guidance and legislative changes. Changes or updates will be communicated through the district website, social media outlets, and via email communication.

ABSENCE FROM SCHOOL

Definition of ABSENCE- missing school time for more than 143 minutes

Definition of TARDY- missing school time for less than 142 minutes

TARDINESS

Tardiness (whether in-person or online) includes being late to school and leaving school before classes are dismissed. Students arriving at school tardy must check-in through the main office and follow school procedures. After ten (10) tardy events not excused by a medical note or other official reason as described in the "Excused Absences" section below, students may be prohibited from participating in school- sponsored dances, events, and non-academic field trips as outlined in the school's SBDM policy. Students may also lose other privileges as designated by the principal.

EXCUSED ABSENCES

After an absence, a student must check in at the office and follow school procedures. The parent/guardian is responsible for ensuring that medical excuses or other school excuse documents are returned to the office within five school days. Students receive eight (8) parent/guardian excuses for full day absences and eight (8) parent/guardian excuses for tardies per school year. Absences, either excused or unexcused, have a negative effect on grades and student achievement. School excuses may be granted for the following reasons:

- The student's illness, mental health and wellness, doctor's appointment, or dental work. Severe illness in the student's immediate family as approved by administration.
- Family emergencies requiring immediate attention as approved by administration.
- Religious holidays and practices approved in advance by administration.
- Funeral in the immediate family of the student.
- School functions—students attending or participating in activities that have been authorized as part of the instructional program shall be considered present at school.
- Other valid reasons outlined in Policy 09.123 and substantiated with parental notes. Such absences will not exceed ten (10) days per school year, with the exception of military training/leave.
- College/University Visits: Juniors and Seniors should refer to school policy.
- Other valid reasons as determined by administration.

Documentation, from sources other than a parent, will be accepted for the following absences:

- Court appearances requiring the student's presence. Documentation from the court will be required.
- Medical, mental health, vision and dental appointments. A physician's excuse shall state the date and/or the number of days for which the student will be excused. Physician's excuses may be faxed, emailed, or delivered directly to a designated staff person within five days of the student's absence.
- During the 2025 legislative session, SB 19 was amended to allow students to be dismissed 1 hour, 1 day a week to receive moral instruction at a church or other organization. Moral instruction must take place off school property, the entity providing moral instruction is required to provide transportation, and all entity personnel involved in transporting or providing instruction to students are required to submit to background checks.

UNEXCUSED ABSENCES

All absences other than those described above are considered unexcused absences. Once a student has exhausted all eight (8) parent/guardian excuses for absences and/or eight (8) parent/guardian excuses for tardies, documentation from other parties listed above is required in order to avoid receiving an unexcused absence.

Any child who has been absent from school with a combination of **three** or more unexcused absences/tardies is truant. Any child who has been reported as truant **two** or more times is a habitual truant (KRS 159.150).

Beginning with the 2024-2025 school year, for a minor in kindergarten to **grade five (5)** whose parent or guardian is in violation of the provisions of KRS 159.010(1)(a) by allowing the child to be absent without excuse for **fifteen (15) or more days** during a school year, (the director of pupil personnel/assistant) shall report the matter to the county attorney for determination of appropriate court intervention, if any; and for a minor in **grade six (6) through twelve (12)** who is a habitual truant as defined in KRS 600.020 and has been absent without excuse for **fifteen (15) or more days** during a school year, (the director of pupil personnel/assistant) shall report the matter to the county attorney for a determination of appropriate court intervention and, if a complaint is filed with the court-designated worker, proceed under subsection of Section 2 of this Act (HB 611).

To notify parents/guardians and/or students of truancy concerns, school/district staff will complete the following steps:

STEP ONE

Unexcused Events Weekly Attendance Reports: Once a student has accumulated an unexcused event (unexcused tardy or

unexcused absence), the parent/guardian will begin receiving weekly attendance reports from Parent Square. These will go out each Monday and will include the number of unexcused events, a reminder to submit excuses and notification of assistance and resources to support student attendance.

STEP TWO

2nd Unexcused Event: In addition to weekly attendance reports, a school staff member will conference with the student to identify barriers, provide support and encourage attendance. This will be documented in the Contact Log of Infinite Campus.

STEP THREE

TRUANT STATUS - 3rd Unexcused Event: In addition to weekly attendance reports, the parent/guardian will receive a letter through Parent Square, with notification of Truancy status, as well as link to a message explaining the Kentucky Compulsory Attendance Law and potential consequences for habitual truancy.

STEP FOUR

5th Unexcused Event: In addition to weekly attendance reports, school staff will conference with the parent/guardian to identify barriers and provide support. If the school staff is unable to make contact with the parent/guardian, the school staff and SRO may conduct a home visit. This will be documented in the Contact Log of Infinite Campus.

STEP FIVE

HABITUAL TRUANCY STATUS – 6th Unexcused Event: In addition to weekly attendance reports, the parent/guardian will receive a FINAL NOTICE letter through Parent Square, notifying parents/guardians of a mandatory Truancy Intervention Meeting that they will be required to attend with the Director of Pupil Personnel.

STEP SIX

10th Unexcused Event: In addition to weekly attendance reports, a representative from the Department of Pupil Personnel shall conduct a home visit.

STEP SEVEN

COUNTY ATTORNEY INVOLVEMENT - 15th Unexcused Event: The parent or guardian of the student will receive notification through Parent Square informing them that, in accordance with Kentucky law, the Director of Pupil Personnel is required to report educational neglect and/or truancy to the County Attorney's Office. As a result of this referral, the family may be required to participate in court proceedings and/or meet with a Court Designated Worker (CDW).

Please Note:

After six (6) unexcused events students may be prohibited from participating in school- sponsored dances, events, and non-academic field trips as outlined in the school's SBDM policy. License revocation procedures will be followed as outlined in the No Pass/No Drive Law (KRS 159.051). Students may also lose other privileges as designated by the principal.

SECONDARY SCHOOL ATTENDANCE FOR STUDENTS AGES 18-21

Hopkins County Schools encourages and supports students 18 years and older to pursue completion of their studies. However, Kentucky statutes are very clear in regards to school attendance for adults. Any student between the ages of 18 and 21 who has not met graduation requirements may continue in school as long as s/he:

1. is in regular attendance (**See TARDINESS and EXCUSED ABSENCES above.**)
2. is making satisfactory progress toward graduation
3. refrains from causing any disciplinary problems; and
4. abides by school regulations.

Home Hospital Instructional Program

Home Hospital students are subject to truancy in the event they are not in attendance on scheduled dates with their home hospital teacher. It is the responsibility of the parent/guardian or 18 years or older student to contact the home hospital teacher regarding absences and turn in the appropriate excused notes. Please note, one (1) unexcused Home Hospital absence is equivalent to 2.5 unexcused student attendance days.

Director of Pupil Personnel Discretion Disclaimer

The Director of Pupil Personnel shall have the discretion to proceed with a legal petition (when in the best interest of the child) in the event the above truancy steps are not completed in their entirety.

It is the parent/guardian responsibility to keep contact information such as telephone numbers and addresses updated so the school and/or district may send important school and district documents to the parent/guardian throughout the school year.

A student who has reached his/her eighteenth (18th) birthday is, by law, considered an adult, and is, therefore, no longer under the jurisdiction of the laws pertaining to juveniles. Designated school personnel should follow the above truancy procedures for students 18 years or older by notifying the student for each step listed above.

MAKEUP WORK

Excused Absences: It is the student's responsibility to arrange for and complete the work missed within a time frame equal to the number of missed days (not less than one) and subject to review for special circumstances. A grade will not be issued for that grading period until the makeup work is completed or until the time limit has expired.

Unexcused or Suspended Absences: Student assignments and/or tests missed during any unexcused or suspended absence will not be administered and the student shall receive a zero (0) for course work missed with the following exception: Any project or homework assigned before a suspension occurs and due during the suspension, will be accepted for credit providing the work is turned in to the teacher on the day the student returns to school. Long term projects assigned during the suspension, but not due until a date after the suspension ends will be accepted. Makeup of mid-term exams and final exams, since they are comprehensive in nature, will also be allowed on the day of return.

EDUCATIONAL ENHANCEMENT OPPORTUNITY

Students may be granted an excused absence for up to ten (10) school days to pursue an educational enhancement opportunity determined by the principal to be of significant educational value. Examples include participation in an educational foreign exchange program or an intensive program in English, science, math, social studies, foreign language and the arts. Events that are not within the standards for approval of educational enhancement opportunity days include funerals, family vacations, sports events, community events and religious events because these are events that are not part of an intensive instructional program. Students with unexcused absences will not be considered for an educational enhancement opportunity unless the Principal determines that extenuating circumstances exist.

Unless the principal determines that extenuating circumstances exist, **requests for dates during the state/district testing periods shall not be granted.** The request form must be submitted at least five days before the absence.

Students receiving an excused absence under this section make up school work missed and shall not have their class grades adversely affected for lack of class attendance or class participation due to the excused absence unless the makeup work is not returned on time; students will receive one (1) makeup work day per day approved with a maximum of five (5) days to complete makeup work.

SPECIAL PERMISSION

The following criteria may be used when considering special permission requests or revocation: class size, attendance, academic effort, and behavior. Transfers involving athletics will be in accordance with Kentucky High School Athletic Association By-Laws and Hopkins County Schools Board Policy. See **School Attendance Zones Policy 09.11** for additional

information.

PARTICIPATION IN EXTRACURRICULAR ACTIVITIES AND SCHOOL-SPONSORED EVENTS

- All extracurricular activity participants must be present at school on the day of practice, performance or activity in order to participate, unless approved by the principal.
- Discipline of extracurricular activity participants shall be determined according to infraction of local school rules.
- Extracurricular activity participants who fail to comply with detention and alternate assignment and their rules shall be suspended from participation in extracurricular activities immediately, and until such time as the charges are resolved and he/she is reinstated.
- Students who are charged with a violation of the student code that results in In-School Removal or suspension shall be suspended from all extracurricular activities and school-sponsored events immediately, and until such time as the charges are resolved and he/she is reinstated. In the event of suspension, student must attend a full six-hour school day before being reinstated. Absence from school or class immediately following disciplinary action does not remove the requirement to attend a full six-hour day prior to reinstatement.
- Extracurricular activity participants who are charged with a violation of the student code that results in Friday/Saturday School must attend the first available Friday/Saturday School session. If a student fails to serve, he/she shall be suspended from participation in extracurricular activities immediately, and until such time as the charges are resolved and he/she is reinstated.
- Sponsors/coaches will follow policy of student rights/responsibilities, local school rules and regulations, and KHSAA Bylaws, if applicable.
- Any student who is under penalty or discipline or whose character or conduct is such as to reflect discredit upon the school may not be eligible to participate until a complete review is completed by school officials. This policy applies to athletic teams, non-academic band activities, clubs, and all student organizations.
- All extracurricular activity participants will be subject to random drug testing. **(See appendix for details.)**
- Students participating in the Virtual Learning Program are not eligible to access extracurricular activities including, but not limited to, sports activities.

PARTICIPATION IN SCHOOL CLUBS

Parental/Guardian permission is required for any student pursuing membership in a club affiliated with their school. This requirement applies to all clubs; curricular, co-curricular, or non-curricular. The **Student Participation in School Clubs Parental Consent Form** (see appendix) must be completed, signed by a parent/legal guardian and the student, and returned to the club advisor before the student may participate or be enrolled as a member of the club.

ELEMENTARY AND MIDDLE SCHOOL PARTICIPATION AT THE HIGH SCHOOL LEVEL

Students at the Middle School level may participate at the High School level using the following guidelines:

- Students must play for the high school in their designated attendance areas.
- Middle school students may only participate in middle school programs managed by the high school in their designated attendance zone unless otherwise approved by the Superintendent or the Superintendent's designee.
- Any middle school student who plays/participates at the varsity level will have to sit out for one year if he/she transfers to another high school without a verified change in attendance district residence and KHSAA eligibility approval.

ADMINISTRATIVE DECISION GRIEVANCE/APEAL PROCEDURE

The following procedures are to be followed when submitting student/parent/guardian grievances regarding administrative decisions. Prior to submitting a grievance a student/parent shall express their concern to the school level administrator for resolution.

Level 1/School Principal: If the student/parent/guardian deems the resolution unsatisfactory, the student/parent/guardian shall submit his or her initial written grievance on the Student/Parent/Guardian Grievance

Regarding Administrative Decisions Form **09.4281 AP.2** to the student's principal. In the event that the grievance is alleged against a school administrator other than the Principal, the Principal shall investigate allegations as soon as circumstances allow, but not later than three (3) days of submission of the original written grievance. The Principal shall discuss with the student/parent/guardian the nature of the grievance and any action that the Principal believes should be taken to resolve the concern of the student/parent/guardian. The Principal shall provide a written response to the student/parent/guardian no later than 10 days after receipt of the student/parent/guardian's original written grievance. In the event that the grievance is alleged against the Principal or he/she deems the matters outside the scope of their authority he/she refers the matters to the appropriate district level administrator. When referring the student/parent/guardian grievance to a district level administrator, the Principal shall forward the grievance form to the district level administrator within five school days. The administrator (principal or district level administrator) acting to resolve the grievance shall provide a written response to the student/parent/guardian postmarked no later than ten (10) school days after receipt of the Student/Parent/Guardian Grievance Regarding Administrative Decisions Form. This administrator shall also forward a copy of the grievance form along with the written response to the Superintendent. If there is no administrative response to the student/parent/guardian grievance within the 10 school days, the grievance is elevated to Level 2.

Level 2/Superintendent will assign to designee: If the student/parent/guardian desires further review of his or her grievance, then the student/parent/guardian must submit a copy of the Student/Parent/Guardian Grievance Regarding Administrative Decisions Form to the Superintendent. The Superintendent shall designate a district level administrator to investigate the matters. The Superintendent's designee shall investigate the allegations, review the information and the administrator's original written response. The Superintendent's designee may conduct further investigation of the grievance if necessary. After review, the Superintendent's designee shall provide a written response to the student/parent/guardian postmarked no later than 10 school days following receipt of the grievance form. If there is no response by the Superintendent's designee to the student/parent/guardian grievance within the 10 school days, the grievance is elevated to Level 3.

Level 3/Superintendent: The student/parent/guardian, after review of the written response, may appeal that response to the Superintendent no later than ten (10) days after receipt of the written communication at Level 2. The Superintendent shall review the grievance and shall provide the student/parent/guardian a written response postmarked within 10 school days following the receipt of the appeal. The decision of the Superintendent shall be final.

APPEALS PROCESS FOR DISCIPLINARY ACTIONS

When a student or parent disagrees with a disciplinary decision, s/he (or their parents) must file a written appeal of the decision within three (3) school days of the date of the disciplinary action. If the disciplinary consequence was assigned by a teacher or an assistant principal, the written appeal must go first to the principal. If the disciplinary consequence was assigned by the principal and involved a consequence of out of school suspension or higher, the written appeal goes directly to the superintendent/designee.

Upon receipt of the written appeal, the principal or superintendent/designee will respond in writing to the person making the appeal within ten (10) school days of receipt of the written appeals notice. If a student or parent is appealing a suspension, the student will not serve the suspension days until all levels of appeal have been exhausted. However, if the allegations include potential harm to self or others, the district may assign the student to alternative placement, with all school work provided at full credit, until the appeal has been resolved.

In the event that the principal denies the appeal and the consequence is out of school suspension or higher, the student or parent may appeal that decision to the superintendent/designee. Again, that appeal must be made in writing within three (3) school days of receipt of the principal's written response. The superintendent/designee then must respond in writing to the student or parent within ten (10) school days of receipt of the appeal.

If the issue is not resolved by the superintendent/designee, the student or parent may appeal to the Board of Education, in writing, within three (3) days of receipt of the superintendent's decision. The Board of Education will hear the appeal

at a regularly scheduled Board meeting, or at a specially called meeting at the Board's discretion. In matters related to student discipline, the action of the Board of Education will be limited to an appellate review to determine if procedural flaws (e.g., failure to provide for due process) or unlawful action occurred. In other words, the Board of Education's role is not to determine if the disciplinary consequence was warranted, but rather if the administrator(s) followed board policies and/or laws and regulation.

MEDICATION

Prescription Medication

- The parent/guardian of the student must deliver the medication to the school in person. It is not safe for children to bring their own medication to or from school due to the risk of misuse.
- The medication must be in the original container bearing the pharmacy label and include the directions from the physician, name of medication, strength of medication, date and student name.
- A parent/guardian must sign an authorization card for school personnel to administer medication. These cards are obtained from the school office.
- Parents/guardians are encouraged to bring limited amounts of medication to school and schedule times of administration so that a minimum number of doses will be given during the school day. If a student has to be on medication at home and school, the parent should ask the pharmacist for an extra bottle or container with the pharmacy label attached. All medication will be counted in the presence of the parent and kept in a safe place.
- Parents/guardians are strongly encouraged to have child's inhaler (with pharmacist label, etc.) kept in office so students can be monitored whenever using inhaler and documentation made on medicine record. In certain situations, a written health care provider's authorization shall allow a student to responsibly carry self-administered medication (e.g. Epi-pen or asthma inhaler). (KRS 158.834 and KRS 158.836)
- Emergency kits (such as Epi-pens, etc.) to be used in case of allergic reactions must have a pharmacy label on it. School personnel will be instructed how to give emergency injections. The district has legal forms, as well as a medication card, to be filled out and signed by the student's parent/guardian.

Medical Cannabis

Hopkins County Schools Board of Education policy prohibits the use of medical cannabis on school property.

Over-the-Counter Medication

Per board policy 09.2241, Students with a signed parental consent may receive OTC medication per protocol based on medical review by the school nurse utilizing protocol signed by the Health Department Medical Director. Students without a parental consent on file may only receive over-the-counter medication at school if prescribed by a medical practitioner; any over-the counter medication must be delivered by parents to the school in person and be accompanied by the over-the-counter medical practitioner form.

CLOSED CAMPUS/OFF LIMIT AREAS/WAITING AREAS FOR STUDENTS

Note: Designated by Principal

STUDENT SEARCHES

Students have the protection, as do all citizens, against unreasonable search and seizure of their property. School officials have the right to search students or their property if the officials have reasonable suspicion that the student may be in possession of something that violates school rules or endangers self or others. Searches will be used when other techniques to remedy the situation have been exhausted, or when there is immediate danger to life or safety.

Board Policy 09.436

LOCKER SEARCHES

Lockers are property of the school district and are subject to the Board's regulation and supervision. Locker inspection or searches are not carried out as a harassment technique but as a duty when the school administrator has reason or cause

to believe that a situation exists which involves the health, safety, and welfare of students.

CRIMINAL VIOLATIONS

Students are accountable to their school in their role as students as well as to the law in their capacity as citizens. The criminal laws of the Commonwealth of Kentucky and the federal government apply to the conduct of all persons on school property. Violations should be dealt with according to these laws and local school board policy.

Notification of FERPA Rights (09.14AP.111)

The Family Educational Rights and Privacy Act (FERPA) affords parents and “eligible students” (students 18 years of age or older or students who are attending a postsecondary institution) certain rights with respect to the student’s education records. Updated information about FERPA may be found on the district website. If a parent/guardian or student over the age of 18 wishes to withhold directory information, the director of pupil personnel office must be contacted within the first 30 days of school. Unless a parent/guardian or student over the age of 18 contacts the director of pupil personnel office within the first 30 days of school, student personally identifiable information may be disclosed to recruiting representatives of the U. S. Armed Forces and its service academies, the Kentucky Air National Guard, and the Kentucky Army National Guard and/or Kentucky college/university databases.

GUN FREE ACT OF 1994: It is the policy of the Hopkins County School System to report any student who is determined to have brought a weapon or firearm to a school or school grounds under the jurisdiction of this system to the criminal justice or juvenile delinquency system. To comply with existing requirements of the Individuals with Disabilities Act (IDEA) regarding discipline of students with disabilities, our Board of Education will modify the expulsion requirements on a case-by-case basis for IDEA-eligible students. IDEA-eligible students may be expelled for behavior unrelated to their disabilities, as long as the procedural safeguards required by IDEA and KRS 158.150 are followed.

SAFE SCHOOLS ACT: Any threat of force or violence, the carrying or use of weapons or dangerous instruments; or assault, battery or abuse of educational personnel on or off school property (and the incident is likely to disrupt the educational process) or at a school-sponsored activity constitutes cause for suspension or expulsion from school.

School administrators, teachers or other school personnel may immediately remove or cause to be removed threatening or violent students from a classroom setting or from district transportation system pending any further action (see **REMOVAL OF STUDENTS** section for additional information).

School officials are required to report to law enforcement officials certain acts such as assault resulting in serious injury, a sexual offense, kidnapping, assault involving the use of weapon, possession of a firearm, possession of a controlled substance, or damage to property.

VIDEO SURVEILLANCE AUTHORIZATION: The board authorizes the use of video cameras on district property to ensure the health, welfare, and safety of all staff, students, and visitors to district property, and to safeguard district facilities and equipment. Video cameras may be used in locations as deemed appropriate by the Superintendent or designee. Video surveillance on school buses may be used as evidence to resolve disciplinary issues.

Students or staff in violation of board policies, administrative regulations, building rules, or law shall be subject to appropriate disciplinary action. Others may be referred to law enforcement agencies.

Video recordings may become part of a student's educational record or a staff member's personnel record. The district shall comply with all applicable state and federal laws related to record maintenance and retention.

**RANDOM DRUG TESTING for athletes, extracurricular activity participants and drivers
(outlined in board policy 09.423 – Use of Alcohol, Drugs and Other Prohibited Substances):**

For participation in extracurricular athletics including all sanctioned high school and middle school sports and including but not limited to cheerleading and dance, in the event that a student is found to have had possession of alcohol or illegal drugs or look-a-likes either on or off school grounds, in addition to all other penalties provided for in the Student Code of Acceptable Behavior and Discipline, the following will apply:

First Violation

A student will be suspended for the next four consecutive interscholastic/extracurricular events or the next four weeks of the season, whichever is greater in time. The suspension will begin the date that the results are received. If necessary, the suspension shall carry over to the student's subsequent participation on another athletic team/extracurricular activity and/or the following season. Before reinstatement after the first violation, the student participant must receive an assessment or evaluation for chemical dependency and must successfully complete recommendations that resulted from the chemical dependency assessment as evidenced by a written statement to that effect issued by a treatment counselor. Prior to readmission to participation to the athletic team/curricular activity or reauthorization to drive, the student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a second violation.

If a student is reinstated to the athletic team/extracurricular activity following the first violation, the student's participation in another activity shall not be restricted solely because of the existence of the first violation, as long as the student has completed the period of suspension and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to the activity after a first violation (either because of the student's own election or because the season concluded prior to the expiration of the student's period of suspension, the student is still required to serve the unexpired portion the suspension before becoming eligible for participation in any other extracurricular activity. A student serving a suspension for any sport may try out for a second sport if the student provides a negative drug test result from the testing laboratory under contract. If the student successfully makes the team or joins an extracurricular group, prior to participation, the student must serve the unexpired portion of the previous suspension. The student must complete all forms required for participation on another extracurricular activity, and the student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a second violation.

Second Violation

The student's parent/guardian will receive notification of positive test results and will be afforded a Due Process Hearing conducted by the Principal. At the due process hearing the student may appeal to conduct a retest of the original sample with an independent lab at student expense. The student participant shall be suspended for the next 18 consecutive interscholastic/extracurricular events or 18 consecutive weeks, whichever is greater in time. If necessary, the suspension shall carry over to the student's subsequent participation on another athletic team/extracurricular activity and/or the following season. Before reinstatement to the activity after a second violation, the student participant must successfully complete recommendations that resulted from the chemical dependency assessment as evidenced by a written statement to that effect issued by a treatment counselor. The student must submit to a new drug test administered in

accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a third violation.

If a student is reinstated to the activity following a second violation, the student's participation in another activity shall not be restricted solely because of the existence of the second violation, as long as the student has completed the period of suspension and the required chemical dependency program and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to an activity after a second violation (either because of the student's own election or because the season concluded prior to the expiration of the student's period of suspension) the student is still required to serve the unexpired portion of the suspension before becoming eligible for any other extracurricular activity. A student serving a suspension for one sport/activity may try out for a second sport or join a second activity if the student provides a negative drug test result from the testing laboratory under contract. If the student makes the team, prior to participation, the student must serve the unexpired portion of the previous suspension. The student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a third violation.

Third Violation

The student and his or her parent/guardian will receive notification of positive test results and will be afforded a Due Process Hearing conducted by the Principal. At the due process hearing the student may appeal to conduct a retest of the original sample with an independent lab at student expense. The student participant or driver shall be excluded from participation in any extracurricular activity for the remainder of the student's eligibility.

A third violation shall disqualify the student's involvement in all extracurricular activities (varsity and sub-varsity) or from driving/parking on school property for the remainder of his/her enrollment in the District.

Notice to Participants: Prior to tryouts for an athletic team or joining an extracurricular activity, the head coach shall provide all students choosing to participate in the athletic team/extracurricular activity and their parents/guardians with a written copy of this policy. Each student who chooses to participate and a parent/guardian of that student shall be required to sign a statement indicating that they have received, read, understand and fully agree to be bound by the terms, conditions, and procedures under this policy.

NO PASS/NO DRIVE DRIVER'S LICENSE REVOCATION

The 2007 General Assembly amended KRS 159.051 and KRS 186.470, requiring school districts to pursue revocation of the driver's license for students who are academically deficient, drop out of school or accumulate nine or more unexcused absences in the preceding semester (including out-of-school suspensions). Students must have passed 66% of their total classes during the preceding semester to be compliant with No Pass/No Drive (for example, students who take 6 classes must have passed at least 4 of them). Parental consent to release information as part of the revocation process will be obtained as part of the process of applying for a license.

PHYSICAL RESTRAINT AND SAFE CRISIS MANAGEMENT

Physical Restraint

Use of physical restraint by all school personnel is permitted when a student's behavior poses an imminent danger of physical harm to self or others in clearly unavoidable emergency circumstances. In such situations, staff who have not had core team training may physically restrain students but shall summon core trained school personnel as soon as possible. In all situations involving use of physical restraint:

- The student shall be monitored for physical and psychological well-being for the duration of the restraint.
- Personnel shall use only the amount of force reasonably believed necessary to protect the student or others from imminent danger of physical harm.

Training

- All school personnel shall be trained annually to use an array of positive behavioral supports and interventions. A core team of selected school personnel designated to respond to dangerous behavior and to implement physical restraint of students shall receive additional yearly training in the areas required by 704 KAR7:160. (Exception: Core team members who are school resource officers or other sworn law enforcement officers are not required to undergo this training.)

Required Procedures

The Superintendent/designee shall develop procedures to be followed during and after each use of physical restraint to include the following:

1. Documentation of the event in the student information system;
2. Notice to parents; and
3. A process for the parent or emancipated youth to request a debriefing session.

Notification Requirements

The Principal of the school shall be notified as soon as possible when physical restraint is used but no later than the end of the school day on which it occurs. Following each incident of physical restraint of a student and if the student is not an emancipated youth, the parent of the student shall be notified of the incident either verbally or through electronic communication as soon as possible within twenty-four (24) hours of the incident.
