RE: GoGuardian Teacher Renewal

We've used GoGuardian Teacher since 2016. This platform is a robust, digital classroom management tool designed to help our teachers monitor and guide student online activity in real time. Through its live dashboard, teachers can view individual student screens, instantly open or close browser tabs, and receive AI-driven alerts when a student wanders off-task. The platform also features "Scenes," which allow instructors to create custom filtering rules that block distracting websites or restrict browsing to a specific list of approved educational resources.

I ask permission to continue using this product for in-classroom management of student online activity.

Thank you!
