Purchasing Manual

Kentucky Model Procurement Code

Kentucky law provides two basic methods of procurement for local school districts. These methods are Model Procurement (KRS 45A) and the Bid Law (KRS 424.260). The Bid Law Requires less record keeping but very little flexibility. Model Procurement requires more written documentation but provides more purchasing options. The KDE Division of Finance recommends Model Procurement for school districts. Christian County Public schools operates under the Model Procurement Code.

The superintendent is hereby designated as the chief purchasing officer for Christian County Public Schools. The superintendent delegates the finance officer to act as purchasing officer with authority to oversee purchasing and to make written determinations and findings with respect thereto.

All contracts shall be entered into, not by individuals, but rather by the Board at a regularly scheduled or special meeting.

Staff with purchasing authority are encouraged to acquire goods, services, or construction through local bids, cooperative bids, or state price contract. This is the most efficient method of procurement. Purchases shall not be fragmented or artificially divided to avoid use of appropriate procurement methods.

WAYS TO PURCHASE – see Flow Chart (Appendix F)

Competitive Sealed Bidding:

Any group of like items that total more than \$50,000 district wide in one fiscal year must be bid either through one of our Board approved cooperatives, locally approved bid, or state price contract.

Competitive Negotiation:

The District may purchase supplies and/or equipment outside an established price contract of the federal government (GSA), the State Division of Purchases, a cooperative agency bid approved by the Board, or a District bid if:

1. The supplies and/or equipment meet the specifications of contracts awarded by the Division of Purchases, a federal agency (GSA), a cooperative agency, or a District bid; **and**
2. The supplies and/or equipment are available at a lower price; **and**
3. The purchase does not exceed \$2,500; **and**
4. The District's finance or purchasing officer has certified compliance with first and second requirements. Purchase Certification (Quote Form) required to be attached to purchase order. (**Appendix C**).

Non-Competitive Negotiation:

District is authorized to acquire goods, services, or construction through non-competitive negotiation under the following circumstances, providing a written determination is made that competitive bidding is not feasible. If available, quotes from three (3) suppliers shall be secured if for purchases exceeding \$1,000. At least one (1) of the following conditions shall be met:

1. An emergency has been determined.
 - a. Emergency is defined as a situation that creates a threat to public health, welfare, or safety such as may arise by reason of floods, epidemics, riots and equipment failures. The existence of such a condition creates an immediate and serious need to supplies, service, or construction that cannot be met through normal procurement procedures and the lack of which would seriously threaten (a) the functioning of the District; (b) the preservation or protection of property; (c) the health or safety of any person.
2. The product or service to be procured is available from a single source.
3. A necessity is temporarily unavailable from the contracted supplier.
4. Contracts for services.
 - a. Examples: attorney, physician, psychiatrist, psychologist, certified public accountant, registered nurse, or educational specialist, technicians such as plumber, electrician, carpenter, or mechanic; or an artist such as a sculptor, aesthetic painter, or musician; printers for special projects.
5. The contract is for the purchase of perishable items purchased with funds other than school nutrition service funds on a weekly or more frequent basis.
6. The contract or purchase is for replacement parts where the need cannot be reasonably anticipated and stockpiling is not feasible.
7. The contract is for proprietary items for resale.
8. Items for resale include printed documents; stocks and inventories for school bookstores; candies; soft drinks; and all other items that are sold to students and to the general public. Supplies that must be processed prior to resale such as food purchases for the lunchroom are not included as items for resale.
9. The contract or purchase relates to an enterprise in which the buying or selling by students is a part of the educational experience.
10. The contract or purchase is for expenditures made on authorized trips outside the boundaries of the service area of the agency.
11. The contract or purchase is for purchase of supplies that are sold at public auction or by receiving sealed bids.
12. The contract is for group life insurance, group health and accident insurance, group professional liability insurance, worker's compensation insurance, or unemployment insurance.
13. The contract or purchase is for a sale of supplies at reduced prices that will afford a purchase at savings to the school district.
14. The contract or purchase is from a state, U.S. Government, or other public agency.
15. The contract or purchase is from a state, U.S. Government, or other public agency price contract.
16. Specifications cannot be made sufficiently specific to permit an award on the basis of either the lowest bid price or the lowest evaluated bid price.
17. Sealed bidding is inappropriate because the available sources of supply are limited.
18. The bid prices received through sealing bidding are unresponsive or unreasonable.

Types of Travel:

1. In-District Travel

In-District travel is considered travel between official workstations within the school system (***See Appendix B: In-District Mileage Chart***). The Board shall reimburse school personnel for school-related travel when such travel is a required part of the duties of the employee. Reimbursement shall be made at the rate approved by the Board when the employee uses a personal vehicle. The current Board approved rate is \$0.45 per mile. Employees shall complete the In-District Travel Form (***See Appendix A: In-District Travel Form***) and have their principal/immediate supervisor sign to approve reimbursement. The form shall be submitted to the Finance Department for payment.

2. Out-of-District Travel

Out-of-District travel is considered to be travel outside the school system.

a. **STEP 1 – Get Approval**

Employees shall obtain prior authorization to attend professional meetings as specified by council policy and District procedures. The requesting employee shall submit an application to attend the meeting. The Leave Request shall be completed entirely and submitted to the principal/immediate supervisor and will be forwarded to the Superintendent/designee as needed. Approval of the Superintendent/designee shall be contingent on:

- Whether the meeting meets the definition established by policy;
- Skills required by the employee's job description or goals of his/her growth plan; and
- Availability of funds and substitutes

b. **STEP 2 – Purchase Orders (if needed)**

For conferences with a registration fee and/or required overnight stay, Purchase Orders are required to be completed for those costs of the conference. See steps in "Purchasing Manual" section.

c. **STEP 3 – Travel Voucher**

Provided the Superintendent/designee has given prior approval to incur necessary and appropriate expenses, the Board shall reimburse school personnel for school-related travel when such travel is a required part of the duties of the employee or for school-related activities. No requests for travel reimbursement will be considered unless filed on the proper form and accompanied by itemized receipts. You will need to complete the Out-of-District Travel Voucher and submit it to the Finance Department. (***See Appendix C: Out-of-District Travel Voucher***)

The Board will be responsible only for actual expenses; except for meals which are reimbursed on a per diem basis.

Allowable expenses are:

1. **Mileage:** actual mileage for trips outside the school system which have been approved by the Superintendent and the Council in SBDM schools will be reimbursed at the rate approved by the Board when the employee uses a personal vehicle. Current reimbursement rate is \$0.45 per mile.
2. **Gasoline:** actual cost of gasoline and oil purchased and placed in a Board-owned vehicle by an employee while engaged in school-related travel. Purchase must be substantiated by a receipt showing total gallons and total charges.
3. **Tolls and Fees:** all tolls and parking fees incurred in school-related travel.
4. **Car Rental:** car rental charges when approved by the Superintendent and the Council in SBDM schools. Charges must be substantiated by a receipt.

5. Common Carriers: all charges or fares for necessary travel on common carriers (plane, bus, train, taxi, subway, ferry, etc.). Sightseeing and pleasure tours are not reimbursable.
6. Out-of-State Travel: reimbursement for out-of-state travel by privately owned vehicles shall be made on the basis of airplane coach fare or mileage rate, whichever is the lesser amount.
7. Food: as established in administrative procedure, employees shall be eligible for a per diem reimbursement for meal expenses while traveling, if the employee's travel requires an overnight stay and the employee is in travel status during specified time period.
8. Lodging: actual monies spent for lodging while on out-of-District trips, when an overnight stay is required. Allowable expenses shall be reasonable and necessary as determined by the Superintendent.
9. Emergency Repairs to Vehicles: reimbursement will be made for emergency repairs or road service to Board-owned vehicles if incapacitated while out of District. Drivers may not obligate the Board for major repairs without the permission of the Director of Transportation or Superintendent.
10. Superintendent's Travel Expenses: prior to granting approval for payment, the Board shall review itemized reimbursement requests for the Superintendent's travel expenses in an open board meeting.
