Consent Agenda Item (Action Item): Consider/Approve the selection of an architectural firm to provide architectural services for the renovation of the Floyd County Area Technology Center.

Applicable State Law or Regulation: 702 KAR 4:160 – Capital Construction Process

Fiscal/Budgetary Impact: The Floyd County Area Technology Center has successfully secured approximately **\$1.4 million** in grant funding for critical repairs and upgrades. While this funding will address immediate facility needs, the age and design of the existing buildings continue to present significant challenges. Long-term investment in updated facilities remains essential to provide students with safe, efficient, and industry-aligned learning environments that support workforce readiness and economic development in Eastern Kentucky.

Architectural fees and the project schedule will be established upon completion of the selection process and negotiated in accordance with the **A/E Fee Guidelines**.

History/Background: The two buildings that currently house the Floyd County Area Technology Center are among the oldest facilities in Kentucky still being used as Area Technology Centers. One building was constructed in **1962**, and the second in **1972**, making them more than **60** and **50** years old, respectively. The age of these facilities presents ongoing challenges related to infrastructure, maintenance, space utilization, and the ability to provide modern career and technical education programs that meet current industry standards and workforce demands.

- **June 22:** Board approved advertising for Letters of Interest and Requests for Proposals (RFPs).
- **July 15:** Letters of Interest and Requests for Proposals were due by 12:00 p.m.

Recommended Action: Select and approve an architectural firm to provide architectural services for the renovation of the Floyd County Area Technology Center.
