Memorandum of Agreement

This Memorandum of Agreement (MOA) is entered into, by and between the Commonwealth of Kentucky, The Kentucky Department of Education (“the Commonwealth”) and Floyd County Schools (“the Contractor”) to establish an agreement for The Community Education Grant. This MOA is effective from August 1, 2026, through June 30, 2027.

Scope of Services:

Community education is a state grant that provides \$20,000 to hire a full-time community education director to implement a county-wide community education program. The district is required to provide a 25% cash match of \$5,000 for the salary of the director. The five main components of a fully implemented community education program are facility usage, lifelong learning opportunities, volunteerism/citizenship involvement, preschool through 12th grade support, and collaborations.

Goals & Deliverables:

Expanding utilization of school facilities – Community schools serve the entire community. A fully functioning community education school provides opportunities for all community members to utilize school facilities, creating a belief that schools are the center of the community.

Lifelong learning opportunities – Learning begins at birth and is lifelong. As the basic education agency of the community, public schools respond to both the formal and informal education needs and desires of members of all ages in the community.

Volunteer program – Whether it is a parent or other family member, a senior citizen, or a young professional, volunteers enhance students' learning experiences. Research demonstrates that when parents and other community members are engaged in the educational process of students, the schools are better, and student performance improves.

Preschool-12 Support – Community support for students learning takes many forms. The community becomes the classroom, enabling students to integrate academic knowledge and critical thinking skills with real-life issues. Students have an opportunity to become resources and respected leaders in their communities.

Collaborations – Successful collaboration is dependent upon intentional, well-facilitated coordination. Community education directors assume responsibility for ensuring that continued progress is made in resolving school and community issues. Community education provides linkages with business/industry, community agencies, organizations, and individuals to resolve community and school issues.

4.00 Reduction in Contract Worker Hours
