Spring Team Tennis

**Positive Developments
and Highlights**

As our partners at UTR Sports do not currently have the capability to run a team tournament through their software, we collaborated with the USTA platform to provide complete brackets/results for the state tennis team tournaments for the first time.

**Issues of Concern
(legal, playing Rules,
fiscal management,
etc.)**

Lineup stacking and coaching conduct are the two issues that are most discussed by coaches and officials.

**Championship
Update/Review**

The Team Tennis Tournaments managed to avoid the inclement weather issues that plagued the singles/doubles championships and were able to be completed as originally scheduled.

**Officials
Update/Review**

We were one official short on the final day of the team tournaments due to scheduling conflicts.
