Each year Covington Independent Public Schools reviews the Code of Acceptable Behavior and Discipline. A committee of parents, teachers, administrators, and advocates meet to consider recommendations and to make needed revisions. Each local school safety plan is reviewed in like manner. The revisions are then reviewed by legal counsel, forwarded to the Superintendent and School Board for approval.

Questions concerning the Code of Acceptable Behavior and Discipline should be directed to:

Director of Pupil Personnel

INTRODUCTION

PURPOSE

The Board of Education of Covington Independent Public Schools believes the purpose of the Code of Acceptable Behavior and Discipline is to maintain a positive educational process in the schools. The Board believes each individual student behavior incident should be considered and extenuating circumstances should always be reviewed for the welfare of the student. The Code is intended to act as a guide to ensure students are treated fairly but be flexible enough to address individual student behavior incidents. This flexibility will enhance the educational process.

The Code of Acceptable Behavior and Discipline applies to students and staff in Covington Independent Public Schools. The Code will be reviewed annually.

The Code of Acceptable Behavior and Discipline, as adopted, will be supported by school expectations, rules and regulations and be primarily administered through the authority of principals of Covington Independent Public Schools with the support of the instructional staff of the schools.

PHILOSOPHY

To ensure that an environment conducive to effective learning is maintained in Covington Independent Public Schools, it is necessary to establish a consistent and effective discipline code.

Covington Independent Public Schools Board of Education recognizes its responsibility to prepare students for their role as adults in a democratic society. To accomplish this, there must be mutual respect and trust toward each other by students, parents, and school staff. The Code of Acceptable Behavior and Discipline is a vehicle for accomplishing this objective.

Effective learning is not possible without an environment that is safe, respectful, and responsible. Establishing behavior expectations that are taught and reinforced by all school staff members creates such an environment.

Positive Behavioral Interventions and Supports (PBIS) is the primary tool that Covington Independent Public Schools will use to address student misbehavior. We will use a range of interventions and supports based on the student behavior at issue and will use alternatives to suspension, including detention and loss of privileges, when those consequences are likely to be effective at remedying student misbehavior.

The Board of Education is entrusted with the mandate to educate all children until graduation or age twenty-one (21). They are committed to establishing an environment that is most conducive to learning, while protecting the individual rights and responsibilities of all.

EDUCATIONAL PROCESS

Educational Process refers to diverse physical locations, contexts, and cultures in which students learn. It encompasses learning resources and technology, means of teaching, modes of learning, and connections to societal and global context. In this Code, educational process includes but is not limited to sound or video accidentally or intentionally transmitted on camera, bus stops, classrooms, gymnasiums, school/public libraries, and cafeterias.

SUPERINTENDENT'S MESSAGE

Dear CIPS Students and Families:

It is an honor to welcome you to a new school year in Covington Independent Public Schools. I believe deeply in the promise and potential of every student we serve. Our responsibility is not simply to help students complete school, but to ensure they are known, supported, challenged, and prepared to pursue their dreams with confidence.

For students to thrive, our schools must be places where everyone feels safe, respected, valued, and connected. This Code of Acceptable Behavior and Discipline outlines the expectations, rights, responsibilities, supports, and responses that help us create those learning environments together. It is more than a list of rules or consequences; it is a shared commitment to protecting learning, strengthening relationships, and helping students make responsible choices.

Students are still learning and growing, and mistakes will occur. When they do, we must respond with both accountability and care. That means addressing behavior fairly and consistently, seeking to understand what a student may need, repairing harm when it occurs, and helping students learn from their choices. Whenever possible, our goal is to keep students connected to their school community and engaged in meaningful learning.

Creating the schools our students deserve requires all of us. Students contribute by making choices that support their own learning and the well-being of others. Staff must teach, model, and reinforce expectations while treating every student, and each other, with dignity. Families are essential partners in helping students understand the importance of attendance, effort, respect, and responsibility.

Please review this Code together and reach out when you have questions or need support. We may not always agree on every decision, but you should always expect us to listen, communicate honestly, act thoughtfully, and remain focused on what is best for students.

I am excited about what we will accomplish together. Every CIPS student deserves the opportunity to dream boldly, achieve at high levels, and graduate prepared to succeed in an ever-evolving world. Together, we will build schools and a community where that promise becomes possible for every child.

With gratitude and high expectations,

Cortnei Flucas

POSITIVE BEHAVIOR INTERVENTIONS & SUPPORTS (PBIS)

Covington Independent Public Schools facilitates the Positive Behavior Intervention and Supports (PBIS) framework which includes proactive strategies for defining, supporting, and teaching appropriate behaviors to create positive learning environments. Attention is focused on sustaining a three-level system of support to enhance student learning. Students often need encouragement and new skills to improve behaviors and assistance in learning to do so. School staff recognize that maintaining and changing student behaviors involves a continuum of acknowledgements, supports, and interventions. (Center for Positive Behavior Intervention Supports, University of Oregon)

Covington Independent Public Schools has embraced PBIS, as the primary tool to address student misbehavior and to enhance school climate and culture across the district. PBIS is a research-based model that studies have shown to improve student academic and behavior outcomes. Our schools strive to ensure all students have access to effective behavioral practices and interventions. PBIS provides a framework for analyzing school wide behavior referrals to make decisions and solve problems based on their individual school needs.

Parents and students will notice PBIS in our schools when they see and hear each school's clearly defined expectations for all and by the rewards students can obtain by meeting these expectations and the range of interventions and supports students will receive.

Successful PBIS implementation will help us:

- Have more engaging, responsive, preventative, and productive learning environments.
- Improve educational process management and address disciplinary issues through interventions designed and implemented based on continuous data analysis.
- Improve support for students whose behaviors require more specialized assistance.
- Maximize academic engagement and achievement for all students

PBIS schools organize their evidence-based behavior practices and systems into an integrated collection or continuum in which students experience supports based on their behavior responsiveness to intervention. A three-level prevention logic requires that all students receive support at the universal or primary level. If the

behavior of some students is not responsive, more intensive behavioral supports are provided, in the form of a group contingency (selected or secondary level) or a highly individualized plan (intensive or level).

LEVELS OF STRATEGIES, INTERVENTIONS, AND RESPONSES

Examples of Evidence-Based Educational Process Interventions and Supports

Proactive systems of support assist all students in achieving social, emotional, and academic success. Proactive support provide clear, consistent expectations so that every student knows exactly what is expected across learning environments. When a student demonstrates irresponsible behavior, determines a reason for the misbehavior and take action to reduce and eliminate the behavior. Modify conditions that perpetuate misbehavior, eliminate pleasant consequences, or implement corrective responses, thus promoting a safe and respectful learning environment.

Proactive Educational Process Interventions and Supports

- Create positive educational process expectations that are clearly defined, taught, and posted in a way that can be clearly observed from anywhere in the environment.
- Continuously teach and reteach learning environments expectations throughout the year (e.g., schedule for teaching by week month, after breaks).
- Model and practice expectations in appropriate setting (e.g., group work, individual work).
- Use pre-correction strategies to remind students of expectations before the next task.
- Use more positive than corrective interactions (at a ratio of 3:1) between staff and students, students and students, and staff and staff.
- Utilize fluent and consistent corrections for early-stage misbehavior when such corrections are necessary (e.g., CHAMPS, Teacher Encyclopedia).
- Create educational process acknowledgment systems to increase responsible student behavior.
- Maintain positive expectations for all students, in all settings, at all times.
- Implement effective instructional practices.
- Actively engage students in learning.
- Provide immediate positive feedback.
- Build positive relationships with students and families.
- Teach prevention lessons (e.g., social and emotional learning, bullying prevention, suicide prevention, and trauma-informed practices).

Teacher Based Action to Reduce and Eliminate Misbehavior

- Provide lessons to teach or reteach the student how to behave responsibly.
- Change student seating.
- Pace the lesson more quickly to promote on-task behavior.
- Actively ignore low level misbehavior, examples may include pencil tapping, no supplies, and momentary head resting.
- Respond calmly, stating behavior.
- Restructure educational process practices based on student needs (e.g., structured recess, structured lunch, visual schedules).
- Use progress-monitoring tools (e.g., on-task monitoring form, replacement behavior worksheet, ratio of interactions tracking form, reflection sheets, behavior contracts, and student point sheets).
- Establish and consistently implement corrective responses for rule violations (e.g., student loses time for valued activity, in-class time-out, time-out in another class, restitution given for property damage, restitution given for relationship damage, positive practice, loss of points or privileges).
- Communicate teacher-based actions with parents.
- Utilize restorative affective statements and affective questions.
- Student-teacher impromptu conferencing with active listening.

Other Examples of Evidence-Based Educational Process Interventions and Supports

These interventions often involve support staff, both school-based, and within the broader community, and aim to engage the student's support system to ensure successful learning and consistency of interventions and to change the conditions that contribute to the student's inappropriate or disruptive behavior. Staff should use these responses in a graduated fashion.

- Establish an educational process acknowledgment system with opportunities for individual and school wide recognition.
- Effectively and actively supervise in common areas (e.g., all staff in hallways during transition, hallway sweeps) and provide positive reinforcement for students exhibiting behaviors that meet expectations.
- Increase supervision in non- educational process settings.
- Refer to before- and after-school programs for additional support.
- Employ targeted strategies for groups of students (e.g., mentoring programs, bullying prevention lessons for selected students, suicide prevention drop-in centers).
- Design social and emotional skills instruction groups (e.g., conflict-management, anger-management, aggression replacement, organizational skills).
- Establish an individual student support, response, or problem-solving team.
- Establish in-school conflict resolution programs (e.g., community conferencing, peer mediation).
- Use parent engagement strategies (e.g., newsletters, family nights).
- Design support and advisory groups that engage parents, students, and the community.
- Use universal screeners and assessments to proactively identify students in need of support (e.g., Strengths and Difficulties Questionnaire, Student Risk Screening Scale).
- Use responsive interventions and appropriate referrals (e.g., North Key, CHNK, referrals to Family Resource and Youth Services Centers [FRYSCs], Social Services).
- Refer to school-based health or mental health clinic.
- Mental health evaluation referral (e.g., mobile assessments, counseling services).

In accordance with [KRS 158.150](#), any student who engages in the following prohibited behaviors-whether on school property, on school-provided transportation, on off school property at any school-sponsored activity-shall be subject to disciplinary action up to and including suspension or expulsion:
 - **Willful Disobedience & Defiance:** Direct refusal to comply with the lawful authority of teachers, administrators, or school personnel.
 - **Profanity & Vulgarity:** Use of obscene language, gestures, or distribution of vulgar students.
 - **Assault & Physical Abuse:** Committing assault, battery, or physical abuse against other students.
 - **Threats of Force:** Verbal, written, or electronic threats of force of violence targeting individuals or the school community.
 - **Property Damage & Threat:** Stealing, destroying, defacing, or wantonly damaging school property or personal property of others.
 - **Weapons Violation:** Carrying, possessing, or using weapons or dangerous instruments.
 - **Incorrigible Conduct:** Persistent, severe misbehavior that continuously disrupts the educational environment.
- Administrative Hearings may result in mandatory drug and alcohol assessment, and an order to follow all recommendations of that assessment as alternative to placement in an alternative program or expulsion.
- Pre-K through Grade 3 – *Covington Independent Public Schools is committed to take steps to reduce and significantly limit expulsion and suspension practices. If a student in grades pre-K through grade 3 engages in pervasive or serious aggressive acts that cause injury or threaten children’s safety in the educational process, the administrator can determine the most appropriate interventions and request an out-of-school suspension. Any suspension requires the permission of the Superintendent’s Designee. The administrator must also immediately provide written notification to the Superintendent’s Designee upon suspension. In addition, an intervention plan shall be developed. Parents must be invited to be directly involved in the development of the intervention plan to support their child’s success.*

Any action under this section related to students with disabilities shall be in compliance with applicable federal law. See page 20.

Due Process Procedures

An administrator may request an extended suspension of up to ten days and/or a discipline review hearing for Level 3 offenses. The request shall be made before the closure of the school day following the administrator's knowledge of the incident. The request shall be made in writing to the Superintendent of Schools or to the Director of Pupil Personnel. A certified hearing officer (either the Director of Pupil Personnel or Designee) shall conduct the hearing and make a written recommendation to the Superintendent of Schools. That recommendation may include expulsion by the Board of Education, alternative placement, extended suspension, or return to school with or without other sanction.

Covington Alternative to Suspension (CATS) Program

The Covington Alternative to Suspension (CATS) Program is operated by the Covington Independent Public Schools and is designed to provide an alternative to out-of-school suspensions and expulsions.

The program is available to students in grades 4-12, subject to capacity restrictions. Students who commit specific disciplinary violations may be eligible to participate. Elementary student placements must be approved through the Pupil Personnel Office or the Superintendent. Upon successful completion of program requirements, the student's record will not reflect an out-of-school suspension for that specific incident. Students participating in the program spend a maximum of 10 days at a time. Any additional days must be approved through the DPP Office.

Transformational Learning Center (TLC)

The goal of the Transformational Learning Center is to help students develop their behavioral, social, and academic skills to return to their home school to continue their education. TLC serves students in grades 6 – 12 who have exhibited significant behavioral challenges in the regular school setting.

Students typically enter TLC from an Admissions and Release Committee (ARC) special education decision, or from a disciplinary action from central office or the Board of Education. Parents and students may request to attend TLC for a variety of reasons. The DPP shall review the request and examine program capacity. After the review process the request will either be approved or denied.

The program is grounded in the learning and practice of common area procedures, and a culture of respect for all.

Students proceed academically through the same coursework required at their home school.

GRIEVANCE REGARDING ADMINISTRATIVE BEHAVIOR DECISIONS

The following procedures are to be followed when submitting student/parent/guardian grievances regarding administrative decisions. Prior to submitting a grievance, a student/parent shall express their concern to the school level administrator for resolution.

Level 1: If the student/parent/guardian deems the resolution unsatisfactory, the student/parent/ guardian shall submit his or her initial written grievance/complaint to the student's Principal. In the event that the grievance is alleged against a school administrator other than the Principal, the Principal shall investigate allegations as soon as circumstances allow, but not later than three (3) workdays of submission of the original written grievance. The principal shall discuss with the student/parent/guardian the nature of the grievance and any action that the principal believes should be taken to resolve the concern of the student/parent/guardian. The principal shall provide a written response to the student/parent/guardian no later than ten (10) workdays after receipt of the student/parent/guardian's original written grievance. In the event that the grievance is alleged against the principal or he/she deems the matters outside the scope of their authority he/she refers the matters to the appropriate district level administrator. When referring to the student/parent/guardian grievance to a district level administrator, the principal shall forward the written grievance/complaint to the district level administrator within five (5) workdays. The administrator (Principal or district level administrator) acting to resolve the grievance shall provide a written response to the student/parent/guardian postmarked no later than ten (10) workdays after receipt of the grievance/complaint. This administrator shall also forward a copy of the written grievance along with the written response to the Superintendent. If there is no administrative response to the student/parent/guardian grievance within the ten (10) workdays, the grievance is elevated to Level 2.

Level 2: If the student/parent/guardian desires further review of his or her grievance, then the student/parent/guardian must submit a copy of the Student/Parent/Guardian Written Grievance Regarding Administrative Decisions to the Superintendent. The Superintendent shall designate a district level administrator to investigate the matters. The Superintendent's designee shall investigate the allegations, review the information and the administrator's original written response. The Superintendent's designee may conduct further investigation of the grievance if necessary. After review, the superintendent's designee shall provide a written response to the student/parent/ guardian postmarked no later than ten (10) workdays following receipt of the written grievance. If there is no response by the Superintendent's designee to the student/parent/guardian grievance within the ten (10) workdays, the grievance is elevated to Level 3.

A written report on all findings of the investigation shall be completed within thirty (30) workdays, unless additional time is necessary due to the matter being investigated by a law enforcement or governmental agency.

Level 3: The student/parent/guardian, after reviewing the written response, may appeal that response to the Superintendent no later than ten (10) workdays after receipt of the written communication at Level 2. The Superintendent shall review the grievance and shall provide the student/parent/guardian with a written response postmarked within ten (10) workdays following the receipt of the appeal. The decision of the Superintendent shall be final.

HARASSMENT/DISCRIMINATION, HARASSING COMMUNICATION GRIEVANCE PROCEDURES

A student or parent who believes he/she has been a victim of an act of harassment, discrimination, harassing communication, or who has observed other students being victimized shall, as soon as reasonably practicable, inform his/her Principal in writing and then immediately notify the Superintendent and or the Title IX/Equity Coordinator, as appropriate.

Employees who observe prohibited behaviors or with whom students share a complaint shall notify the

principal or their immediate supervisor. The supervisor shall immediately forward information to the Superintendent/designee. The Superintendent/designee may take interim measures to protect complainants during the investigation.

SUSPENSION/EXPULSION PROCEDURES FOR IDENTIFIED EDUCATIONALLY DISABLED STUDENTS

(Revised June 2011)

Due Process Procedures and Safeguards

- The Superintendent, Director of Special Education, and the building principals make sure that appropriate procedures are followed in the suspension and expulsion of children and youth with disabilities.
 - Suspensions of less than ten (10) days in length, which are utilized as temporary discipline measures (if the suspension is for a minor infraction and no further disciplinary action is planned), an Admissions and Release Committee (ARC) meeting is not required unless requested by the parent, Principal or other service providers. However, for an aggregate of ten (10) days of suspension for the year, or where expulsion is contemplated, the ARC convenes. Special Education services and access to the general curriculum shall continue for suspensions beyond ten (10) days.
- For suspensions of ten (10) days in length where expulsion is contemplated, parents are given prior written notification of the Admissions and Release Committee meeting. The notice must meet regulatory criteria for an Admissions and Release committee meeting notice as set forth in 707 KAR 1:060, the Due Process Policy and Procedures Manual. Parents are given a copy of their rights, which includes that they have the right to a due process hearing if they disagree with the committee's determinations.
 - Interim Alternative Education Settings for Up to Forty-five (45) Days. A child with a disability is subject to placement in an interim alternative educational placement for up to forty-five (45) days if the child; a.) Carries a weapon to school or to a school function under the jurisdiction of the District or the State; b.) Knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of the District or the State; c.) Is in a current placement that is substantially likely to result in injury to the child or others.
- Once the Admissions and Release Committee is convened, the Admissions and Release Committee must make the following determinations:
 - If the Individual Educational Plan and placement are appropriate and being fully and correctly implemented,
 - Whether or not the behavior or misconduct is a manifestation of the pupil's disability.
- If the Admissions and Release Committee finds that the Individual Educational Plan or placement are not appropriate and being fully and correctly implemented, appropriate modifications should be determined at the Admissions and Release Committee meeting and no further disciplinary action beyond the suspension should occur.
- If the Admissions and Release Committee finds that the IEP and placement are appropriate and being fully and correctly implemented, they must then consider whether the behavior or misconduct was a manifestation of the disabling condition.
- If the Admissions and Release Committee finds that the student's misconduct was a manifestation of the student's disability, this should be documented as a written determination and transmitted directly to the local superintendent or designee. If this determination is made, the local superintendent may not recommend expulsion to the local board of education: however, if a proper determination has been made that the student's conduct was a manifestation of the disabling condition and, therefore, is not eligible for expulsion, another course of action may be available. In instances of extremely serious misconduct in which it appears that maintaining a student in her/his current educational placement is substantially likely to result in injury to self or others, districts may pursue, through the judicial system, exclusion of the student from school.
- If the Admissions and Release Committee finds that the student's misconduct was not a manifestation of the student's disabling condition, this should be documented as a written determination and transmitted directly to the local superintendent or designee. If this determination is made, the local superintendent may recommend expulsion to the local board of education.

SCHOOL BUS SAFETY, RULES, AND REGULATIONS

Covington Board of Education Policies 06.32, 06.33, 06.34, 06342

The District has authority in all matters of student behavior, including when a student is on his/her way to or from school (by bus or by walking), or any school-related or school-sponsored activity. As such, students are subject to the same Code of Acceptable Behavior and Discipline as presented in this handbook on any school-provided transportation.

Parents/guardians may be held responsible for restitution of any damage, beyond normal usage, caused by their child. Parent/guardians can NOT board the bus at any time unless directed by driver.

Bus Conduct

Responsible student behavior is extremely important on the school bus to ensure the safety of the passengers and drivers. All students must follow these bus conduct guidelines.

Students Expectation

- Ride only the bus to which they are assigned and remain on the bus until they reach their destination or transfer point.
- Students MUST arrive at the bus stop 10 minutes early. The bus will not wait for students running late or because a parent requests, they wait. The bus will not stop at unscheduled stops.
- Pupils shall wait at their assigned bus stop off the roadway and shall remain there until the driver has stopped the bus, opened the entrance door, and signaled the pupils to enter the bus. No student will be permitted to board or get off a bus other than at their designated stop. All bus changes must be requested through the transportation office.
- Pupils shall not cross the roadway when entering the school bus until signaled to do so by the bus driver.
- When students are required to cross the roadway when entering or leaving the school bus, crossings shall be made in front of the bus. Pupils shall cross approximately ten (10) feet in front of the bus in order that they may be seen by the bus driver.
- When pupils enter the bus, they shall proceed directly to a seat.
- Pupils shall remain seated until the bus has come to a complete stop.
- Pupils shall not extend their arms, legs, or heads out the bus windows.
- Pupils shall not change from one seat to another while the bus is in motion unless given permission by the bus driver.
- Pupils shall not create noise on the bus to the extent that it might distract the bus driver or to the extent that it might interfere with the driver's ability to hear the signals of emergency vehicles or an approaching train.
- Treat the bus driver/monitor with the same courtesy and respect given to teachers and respect that the driver is in charge of the bus.
- Unacceptable behavior includes noncompliance, disrespect, bullying, disobedience, vulgar, foul and profane language, fighting, harassing, pushing, and shoving other students and other offensive acts.
- Only occupy the space in the seat that is required, especially when students are asked to ride three (3) to a seat.
- Hold all their personal items on their lap, items cannot be placed in the aisle.
- Students MUST keep the aisle of the bus clear at all times.
- Keep the bus clean and refrain from damaging it.
- In an emergency situation students should: Remain calm, listen for the driver's instructions and exit the bus promptly.
- Exit bus in an orderly fashion.

- Pre K-K students may only be released to persons on the transportation/pickup form. ID may be required.

Discipline Consequences

Any student who does not follow the above regulations and/or who refuses to promptly comply with directives regarding his/her behavior while on or waiting for the school bus will be documented in writing by the bus driver or bus monitor. This behavior report will be sent to the principal or designee of the school where the child attends, the Director of Pupil Personnel and/or the Director of Special Education. The principal is authorized to withhold bus riding privileges per page 15 of the Code of Acceptable Behavior and Discipline. The principal shall notify the parents in cases where bus riding privileges have been withheld. The Superintendent or the Superintendent's designee may withhold bus riding privileges up to the remainder of the school year. Students with disabilities who exhibit inappropriate conduct shall be managed in accordance with their Individual Education Plan (IEP) and the legal obligations and standards adopted by the Board.

Emergency Procedures

The Director of Transportation has a school bus transportation safety program as required by applicable law and administrative regulations. Appropriate safety information is disseminated annually in writing to employees, parents, and pupils of the school district. A series of four (4) bus evacuation drills are conducted during each school year. All enrolled students participate in these drills, unless they are absent on the day the drills are scheduled.

Miscellaneous

Safe Crisis Management

The administration endorses the Safe Crisis Management model provided by JKM Training, Inc. Verbal de-escalation skills are the primary mode of prevention and early intervention with acting out students. Physical intervention is used as a last resort and only when a student presents danger to him/herself and/or others. Staff members must be currently certified in Safe Crisis Management in order to utilize the Safe Crisis Management physical intervention techniques.

Reporting of Felony Incidents

In compliance with KRS 158.156 any employee of Covington Schools who knows or has reasonable cause to believe that a student has been the victim of a felony offense by another student while on school premises, on school sponsored transportation, or at a school sponsored event shall immediately provide an oral or written report to the principal of the school attended by the victim. The principal shall notify the parents, legal guardians, or other persons exercising custodial or supervision of the student when the student is involved in an incident reportable under this section. Within 48 hours of the original report, the principal will file a written report to the Director of Pupil Personnel containing the following information:

The name(s) and address(s) of the student, victim, and his or her parent, guardian, or other person exercising control or supervision;

- Student's age.
- Nature and extent of violation.
- Name and address of the student allegedly responsible for the violation.
- Any other information that the principal making the report believes may be helpful in furtherance of KRS chapter 158.

The Director of Pupil Personnel office shall notify a local law enforcement agency (if necessary) or the County Attorney, and Covington Board of Education and assist in any investigation as required by KRS chapter 158.

Reporting Neglect or Abuse

Covington Independent Public Schools shall comply with KRS 620.030 which requires any person who knows or has reasonable cause to believe a child is dependent, neglected, or abused to immediately cause an oral or written report to be made to local law enforcement, Kentucky State Police, the Cabinet for Health and Family Services, the Commonwealth or County Attorney by telephone or otherwise. Any supervisor who receives, for an employee, a report of suspected dependency, neglect, or abuse shall promptly make a report to the proper authorities for investigation.

Retaliation Prohibited

Any student (or parent on behalf of a student) who feels they suffered retaliation for reporting violations of the Code of Acceptable Behavior and Discipline should report the retaliation to the principal. Covington Independent Public Schools prohibits retaliation. The principal shall take seriously any report of retaliation by a student and take appropriate disciplinary actions in accordance with this Code of Acceptable Behavior and Discipline and shall consider a disciplinary hearing request with the discipline review committee to ensure the safety of the victim.

Corporal Punishment

Corporal punishment or paddling is prohibited as a form of punishment.

ATTENDANCE

Kentucky Compulsory Attendance Law

In accordance with **KRS 159.030**, every parent, guardian, or person residing in Kentucky who has custody or control of a child between the ages of six (6) and eighteen (18) is required to ensure that the child attends a regular public day school for the full term during which the school is in session. This includes the district in which the child resides, or any public school designated by the local board of education.

A child is considered within the compulsory attendance age range upon reaching his or her sixth birthday and until the eighteenth birthday. If a parent/guardian chooses to enroll a child at five (5) years of age, the child is then subject to the same expectations for regular attendance.

All children residing in Kentucky are subject to these compulsory attendance laws. This includes children whose families have seasonal residences or whose parents reside in another state. These circumstances do not exempt the child or guardian from compliance with attendance requirements or from any applicable penalties for noncompliance.

Regular Attendance and Student Success

The progress of our students depends greatly on punctuality and consistent attendance. All students are expected to attend class each day that school is in session. Covington Independent Public Schools is committed to promoting regular attendance as a cornerstone of academic success. We firmly believe that attendance is a shared responsibility between students and their parents or guardians.

Being present in class allows students to fully engage in instruction, participate in discussions, receive individualized support, and benefit from teacher guidance-experiences that cannot be replicated through makeup work alone. Frequent absences disrupt the learning process and hinder both academic achievement and personal growth.

We understand students may occasionally need to miss school due to illness, medical appointments, or other unexpected situations. In accordance with district policy, students who are absent must provide a legitimate excuse upon returning to school, within five (5) school days of the student's return, proper documentation-dated and signed by a parent/guardian or a physician-must be submitted for the absence to be excused. A maximum of ten (10) parent/guardian/doctor notes may be accepted per school year, along with a maximum of five (5) late arrivals or early dismissals that constitute less than 35% of the school day.

Attendance Procedures

Parents or guardians may report absences by calling, emailing, or sending a written note. Any one of these forms of communication will count toward the ten (10) allowable parent notes. However, **calls or emails from a physician's office will not be accepted** in place of an official, signed medical excuse. Parents or guardians are expected to call the school **before 8:30 a.m. daily** to report their child's absence. Upon returning to school, the student must bring appropriate documentation, signed and dated, before being readmitted.

Students should use absences only for valid reasons such as personal illness or injury and professional appointments (e.g., doctor, dental). A written excuse-either from a parent or doctor-is still required for these absences to be marked as excused. One note is required per day of absence. (Example: If a student misses three days, a single parent or doctor note listing all three dates will count as three notes.)

School-Sanctioned Absences: Students are not marked absent when participating in school activities that are authorized by the Board of Education and considered an official part of the instructional program. Additionally, students are not marked absent while participating in activities permitted under **KRS 158.240 and KRS 159.035**.

Participation in **4-H educational activities** is also considered school attendance. According to **KRS 159.035**, students enrolled in properly organized 4-H clubs are considered present when participating in regularly

scheduled 4-H educational activities, provided they are supervised by a county extension agent or the designated 4-H club leader.

For the **Kentucky State Fair**, **KRS 158.070(2)** allows students one valid absence day for attendance at the State Fair, provided the appropriate documentation is submitted.

Absences due to a death in the immediate family must be reported via a phone call to the principal or designee and must be accompanied by a written statement upon the student's return.

Reporting Your Child's Absence from School

To report your child's absence, please contact the school **each day** your child will be absent. You may call the school office or email the attendance clerk **before the start of the school day**.

Important: If your call or email is received **after 8:00 a.m.**, you may still receive the school's **automated attendance notification**.

TECHNOLOGY

Covington Independent Public Schools: Acceptable Use Policy for Students

1.0 Introduction and Philosophy

Covington Independent Public Schools (CIPS) is pleased to offer staff and students access to the district's computer network, including the internet, email, and other internal technology resources. This access is provided through the Kentucky Educational Network to support and enrich learning. From this point on, all these resources will be referred to simply as "The Network". The Network is an educational resource intended to enable users to explore thousands of libraries and databases and to exchange information with others around the world. The Network is to be used by staff and students for educational purposes only.

Access to The Network is a **privilege, not a right**. It is provided at no cost to staff and students. All users are expected to act in a responsible, ethical, and legal manner, consistent with the educational objectives of CIPS and the principles of digital citizenship.

2.0 Access, Privacy, and Consent

No Expectation of Privacy: The Network is the property of the district. Users should have no expectation of privacy in the content of their files or electronic communications. Network server storage areas may be treated like school lockers. District administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly.

Content Filtering and Monitoring: The district implements technology protection measures and filtering to block or limit access to materials that are obscene, pornographic, or otherwise harmful to minors. However, no filter is perfect. The district is not responsible for materials a user may acquire on The Network or for the communications of individuals using The Network. All online activity is logged and may be monitored.

Permission and Agreement: To gain access to The Network, all staff must sign and agree to the stipulations outlined in this policy, and students must have a parent/guardian complete and return the required permission and agreement form. This policy and the accompanying agreement apply to any use of The Network, regardless of the device used (district-owned or personal) or the location of use (on or off campus).

3.0 Digital Citizenship

All users of The Network are expected to be good digital citizens. This means practicing safe, responsible, and ethical behavior online. The district will provide instruction on the core elements of digital citizenship, including:

- Appropriate and respectful online communication.
 - Understanding cyberbullying and how to respond.
 - Protecting personal information and respecting the privacy of others.
 - Respecting copyright and intellectual property.
