

Counselor's Corner

August 2026

Ms. Jennifer Weber

Dr. Michelle Cravens

- **School-Based Therapy:** We are very happy to share that we are using One Quest Health exclusively for school-based therapy services this year. They proved to be an incredibly effective and reliable partnership last year and even continued to work with our students and their families throughout the summer. Ms. Olivia will be at Southgate every Tuesday and Wednesday.
- **Scheduling/Enrollments:** We have been working diligently over the last month to get new students enrolled and high school students placed, as well as scheduling all students in Infinite Campus. Every student had a complete schedule and was able to be welcomed into their classes without issue on the first day of school!
- **Counseling Center:** We have relocated and combined our offices and are now in the old nurse's station. Our hope is that we will be able to support more students with behavior, academics, and emotional needs in this space.

- **Facility Dog:** Jorah, of course, is back as part of our team again this year! She is so excited to be back and we are so excited to have her!
