

Kentucky Educational Collaborative for State Agency Children (KECSAC)
Memorandum of Agreement
Overview

Legislation enacted by the Kentucky General Assembly in 1992 (SB260) and 1994 (HB826) established KECSAC and defined “state agency children” (SAC) and the role of school districts in the provision of services to these youth (KRS 158.135). Subsequent regulations provide the foundation for the Memorandum of Agreement (MOA) between KECSAC and the school district providing educational services to state agency children.

Working in cooperation with the Kentucky Departments of Education (KDE); Juvenile Justice (DJJ); Behavioral Health, Developmental and Intellectual Disabilities (BHDID); Community Based Services (DCBS); and Local Education Agencies, KECSAC annually requires that each school district submit the following items as attachments for each program to this MOA:

- **ATTACHMENT 1** - A total budget for the education of state agency children in the treatment programs in project budget report MUNIS format.
- **ATTACHMENT 2** - A comprehensive annual budget for the state agency children educational program.
- **ATTACHMENT 3** - A completed Program Educational Calendar Worksheet.
- **ATTACHMENT 4** - A plan for making up any of the 210 instructional days due to inclement weather or other district planned events.
- **ATTACHMENT 5** - A completed SEEK Calculation Worksheet.
- **ATTACHMENT 6** - A current 2026-2027 Interagency Agreement between the school district and each contracted or operated program and DCBS or DJJ.
- **ATTACHMENT 7** - A 2026-2027 Program Improvement Plan (PIP).
- **ATTACHMENT 8** - Implementation and Impact Check, based upon 2025-2026 Program Improvement Plan.
- **ATTACHMENT 9** - A Student Transition Plan (STP).

The MOA and attachments form the basis for the operation and distribution of State Agency Children’s Funds (SACF) for the delivery of education services to SAC.

1.
 - a. Those children of school age committed to or in custody of the Cabinet for Health and Family Services and placed, or financed by the cabinet, in a Cabinet for Health and Family Services operated or contracted institution, treatment center, facility, including those for therapeutic foster care and excluding those for nontherapeutic foster care; or
 - b. Those children placed or financed by the Cabinet for Health and Family Services in a private facility pursuant to childcare agreements including those for therapeutic foster care and excluding those for nontherapeutic foster care;
2. Those children of school age in home and community-based services provided as an alternative to intermediate care facility services for the intellectually disabled; and
3. Those children committed to or in custody of the Department of Juvenile Justice and placed in a department operated or contracted facility or program; and
4. Those children referred by a court-designated worker and admitted to a Department of Juvenile Justice operated or contracted day treatment program.

The passage of SB260 in 1992 envisioned KECSAC as serving youth in state operated or contracted residential and day treatment programs. With the passage of HB826 in 1994, a diverse array of treatment programs was brought under the SAC definition. With the passage of HB117 in 1996, KECSAC services were extended to youth under the care of the Department of Juvenile Justice.

The educational programs that serve SAC must meet the special needs of students who, upon exiting a public or private treatment program in the Commonwealth, will return to a public school setting as well as those who will enter the work force or some other alternative program.

The original signed copy of the KECSAC MOA and attachments should be returned to the KECSAC office prior to September 15, 2026. KECSAC will affix final signature to the documents and return a final signed MOA to the School District. The school district will not receive reimbursement until all required information is submitted to complete the MOA. A confirmation of receipt of the MOA will be sent to the school district by KECSAC. A final signed copy version will be returned to the school district after submission of completed MOA. **If a completed MOA is not received by March 1, 2027, KECSAC will reallocate funds identified herein to other participating school districts and the outstanding incomplete MOA will be forfeited for the fiscal year.**

The local school district that contracts with KECSAC to provide educational services to SAC must provide an equal and equitable education to students in KECSAC programs. This includes equitable resources such as textbooks, teaching materials, technology materials, support and maintenance.

Make-up Day Plan 2026-2027

Beechwood Independent Board of Education has approved a calendar with 5 scheduled make-up days for inclement weather. Because Beechwood Independent rarely cancels school for inclement weather, these 5 days are scheduled as extended days for Guardian Angel students and staff. However, if Beechwood were to cancel school and need to use a scheduled make-up day, the extended days for Guardian Angel will be adjusted to fulfill the extended day requirement. See attached calendar for more information.

KECSAC Program Improvement Plan 2026-2027 School Year

District: Beechwood Independent Schools

Date: 9/1/2026

Program: Guardian Angel

Person Responsible: Brad Bentley

Standard:	1) Purpose and Direction	☐	4) Resources and Support System	☒
	2) Governance and Leadership	☒	5) Using Results for Continuous Improvement	☒
	3) Teaching and Assessing for Learning	☒		

- Plans should include at least one measurable, academic goal.
- Ensure your objectives are attainable within a specific time frame.
- Goals and strategies should be SMART:

Specific Measurable Attainable Relevant Time-based

Priority Need

(What aspect of past student performance needs improvement?)

With our 2026 Fall MAP Math, 12 of our 30 students tested in the 20th percentile and under. That places 40% of our students far below average in Math.

In 2026 Fall MAP Reading, 9 of our 30 students tested in the 20th percentile and under. That places 30% of our students far below average in Reading.

Guardian Angel had 15 students who tested in the Fall of 2025 and were there to test in the Spring of 2026. That comes out to 30 scores. In Math, 11 of 15 students showed a 3 point or more growth on the RIT scores, 73%. In Reading, 10 of 15 students showed a 3 point or more growth on the RIT scores, 67%.

This averages out to be 70% between the two subjects.

In the 2025-2026 school year, we had 15 students that tested in the fall of 2025 and tested in the spring of 2026. Looking at the data from the MAP growth reports for last school year, our students did

grow. In math, we fell just short of our goal reaching the 49th percentile in growth. In Reading, we exceeded our goal and were in the 64th percentile for growth.

Another area we are going to improve this year is life skills and career readiness for our students. Our need is to expose our children to the possibilities that are linked to their interests.

Supporting Data for Need

(What are the reasons for the need? What data illustrates these reasons?)

MAP is tested, at a minimum, 3 times a school year: Fall, Winter, Math. Fall Map and Reading took place within the first 11 days of the school year.

- 40% of our students tested far below average in math
- 27% of our students tested at the low average range in math
- 30% of our students tested at the far below average in reading
- 23% of our students tested at the low average range in reading

All our students are in a residential treatment facility. Many of our students have not had consistent schooling throughout their developmental years. We want all our students to improve their RIT scores and percentile ranks.

According to data from 25-26 MAP testing, we fall in the low achievement/high growth quadrant. Our median growth percentile: 64th in reading and 49th in math.

Career interest surveys, bringing in speakers, career exploration

Goal *(Addresses the Priority Need)*

(How will our future student performance be stronger?)

For students that MAP tested in the fall and are still with us for spring MAP testing, they will show growth in the RIT scores and percentile ranks. We will decrease the percentage of far below averages in both math and reading by spring MAP testing.

We will continue to show growth in all our students and be above the 50th growth percentile in math and 60th percentile in reading.

By June 2027, 100% of students will participate in a career and life skills exploration pathway that connects their personal interest assessments to actionable post-secondary possibilities, resulting in a minimum 15% increase in student-reported career awareness.

Objectives for Reaching Goal

(What strategies will be implemented in our program to improve student performance pertaining to the Need? Be specific.)

Programs we have: Amplify, Legends of Learning, Prodigy, IXL, Newsela, and Lexia.

We have built in resource time in the school day. We will implement an individualized MTSS Intervention plan for students below the 20th percentile in Math and ELA. Resource time is built into the daily schedule 3 times per week for 50 minutes.

Administer interest inventories (e.g., Holland Code, YouScience) at the start of the academic year to identify all students' strengths and preferences.

Site visits and guest speaker series tailored directly to the top career clusters identified by student interest data.

Embed practical life skills modules (e.g., financial literacy, communication, interview prep) into existing advisory periods or core curricula.

Measure of Objectives

(What data will show that we are implementing successful objectives to reach the goal? What data will show improvements in student performance?)

Intermittent formative and summative assessment data will show growth for all students.

MAP winter testing will take place halfway through the school year to measure progress and growth. MAP spring testing will take place towards the end of the school year to measure progress and growth.

Intentional interventions will be student specific and implemented in math class, reading class, and during resource time.
