

Counselor's Corner

September 2026

Ms. Jennifer Weber

Dr. Michelle Cravens

- **Suicide Prevention for Middle School:** September is Suicide prevention month nationwide. We will be going into the middle school classrooms over the next few days delivering Suicide Prevention awareness and strategies.
- **SEL in Middle School:** We are continuing to use IMAGO as our Social Emotional Learning Platform for our middle school students as we had great success last year. This year, our students and teachers have Pride Time in the mornings where they will focus on SEL, building healthy habits, and starting their day positively together. We are very grateful to Ms. Erika Huff for helping fund IMAGO for us.
- **School Based Mental Health Grant:** Our school was awarded this grant to help support our ongoing efforts to improve mental health in the school. Part of this grant was helping with ongoing education for employees. Last year, Ms. Grace Adamson utilized this for her Masters in School Counseling. This year, Dr. Cravens is utilizing a portion of the funds to complete her coursework in clinical counseling.
