Re: Geothermal Test Bore and Conductivity Test Proposal
Marion County New Lebanon Elementary School
Lebanon, KY

To whom it may concern,

CMTA Engineers has received one (1) proposal from the district's preferred geothermal driller, Bluegrass Geothermal, to perform the work as described in the Geothermal Test Bore Request for Proposal dated August 31, 2026. Bluegrass Geothermal submitted a proposal in the amount of **\$24,750** for the specified scope of work. CMTA believes the proposed cost is fair for this scope of work.

Bluegrass Geothermal has completed work on previous CMTA and Marion County Public Schools projects. Based on their previous experience, the reasonableness of their proposed cost, and their compliance with all requirements of the RFP, CMTA recommends that the Board award the geothermal test bore scope of work to Bluegrass Geothermal in the amount of \$24,750.

Sincerely,

Nick Greenup, EIT
CMTA, Inc.
