Fall/Winter Esports

**Positive Developments
and Highlights**

The preseason started the week of 9/7 with the regular season kicking off the week of 9/21.
As of 9/10, we are tracking 2,225 players on 211 teams across 148 schools. We had 2,350 players Fall '25, so down 95 players overall, but we still have a week for schools to get registered for the regular season.

**Championship
Update/Review**

Our in person Championship is slated for December 9 at The Cornerstone on UK's campus. Worth noting that every champion of our six titles are invited to the PlayVS Cup where they compete nationally. Shelby County's Blue Shel-bys Mario Kart team, which has won the last 5 seasons at state, not only advanced to the PlayVS Cup this past summer, but took the victory. They received \$4,000 in award money(!)

**Noteworthy Changes /
Anticipates Changes**

It seems that the platform going back to a paid model (\$595/school for both seasons, unlimited players) has not deterred enrollment.
