Sport	Fall Golf
Issues of Concern (legal, playing Rules, fiscal management, etc.)	The Region Tournaments produced three situations which had to be resolved by KHSAA staff, working in conjunction with Golf House Kentucky. Despite the postseason instructions requiring a KGA Rules Official, the lack of officials in certain parts of the state makes it challenging to staff each region tournament. Reinforcing the proper procedure when tournament managers require rules interpretations, a process which is outlined on the KHSAA Hard Card, will hopefully eliminate the confusion and misapplications that took place this year. One area that does need to be addressed through our competition rules and/or postseason instructions for 2027, is the tiebreaking procedure when a required tiebreaker is not performed on-site. Staff will work with Golf House Kentucky to develop that policy for next year's events.
Championship Update/Review	The 2027 State First Round events are scheduled to be held at: Regions 1-4 - Owensboro CC Regions 5-8 - Shelbyville CC Regions 9-12 - StoneCrest GC
Fiscal and Budget Issues and Review (attendance, etc.)	Ticket sales were down a combined 149 tickets across all levels and sites for the golf state championships. First round ticket sales decreased by a total of 168 tickets for both genders across the three sites, while sales for the final rounds in Bowling Green increased by 19 tickets.
Noteworthy Changes / Anticipates Changes	Staff has had multiple conversations with iWanamaker over the years and will continue to explore the possibility of partnering with them for the 2027-28 season to develop a statewide platform for golf schedules/results/rankings.
