Sports Report	
Sport	Winter Bowling
Positive Developments and Highlights	Bowling season officially began on October 15. Schools have been receptive to the new realignment and understand the rationale to adjust and balance each region.
Issues of Concern (legal, playing Rules, fiscal management, etc.)	Our office has received several inquiries regarding uniform requirements this season. After consulting with coaches and reviewing USBC regulations, the dress code will be updated and clarified in the competition rules for postseason play.
Championship Update/Review	The oil patterns for the 2027 Regional and State Bowling Championships have been finalized and distributed to member schools. Regional competitions will be held at various sites from January 19 through February 2, with the State Championship returning to Kingpin Lanes February 8–10.
