Sports Report	
Sport	Winter Swimming
Positive Developments and Highlights	The Swim and Dive season officially began on November 2. We appreciate the efforts of our schools and officials who have worked ahead of schedule this year to secure facilities for postseason events.
Championship Update/Review	All regional sites and hosts have been secured and confirmed for the upcoming postseason. State First Round sites have also been finalized, with competition returning to Bowling Green High School, the University of Louisville, and Scott High School on Saturday, February 6. The State Finals will once again be held at the University of Kentucky.
Officials Update/Review	Currently, there are less registered officials compared to last year. However, with the season still in its early stages, we are hopeful those numbers will increase.
