Commissioner Tackett,

I wanted to reach out regarding the proposed realignment involving the 57th and 58th Districts.

At Paintsville, we are happy with our current district alignment and would prefer that it remain as it is for the time being. We value the traditional rivalries and relationships we have established with our district schools, and we don't believe a change is necessary at this point.

We certainly understand the travel concerns raised by Floyd County, but travel is a challenge throughout Eastern Kentucky, and moving schools between districts doesn't necessarily solve that issue.

When the Board of Control conducts its regular review of district and region alignments, we would be open to discussing possible changes at that time. However, we believe maintaining the current alignment is the best approach for now.

Thank you for your time and consideration.
