BACKGROUND

This Kentucky High School Athletic Association Strategic Plan, adopted for 2007-2011, was prepared under the auspices of the Board of Control of the Association. The KHSAA is a private non-profit organization and operates within Internal Revenue Service code 501 (c) 3 as an independent entity. The Association gets its authority to manage interscholastic athletics from the Kentucky Board of Education through 702 KAR 7:065, an enabling and restricting regulation which affects the makeup of the organization.

In 1992-93, the State Board for Elementary and Secondary Education (now known as the Kentucky Board of Education) directed Kentucky Department of Education staff to conduct a Management Review of the association and its operations. After weeks of analysis, sixty-seven (67) recommendations were delivered to the State Board.

In 1993-94, a Task Force commissioned by the Kentucky Board of Education recommended changes in many of the associations' rules, regulations and the governance structure. As a result, the Board of Control was revised to contain 16 members, including four at-large, "non-school" members who are appointed by the Kentucky Board of Education. The limit of games was changed in many sports, and the Association has appointed committees to study the governance of middle school athletics and additional rules concerning cheerleading. These are only a few of the changes which could plot the Association's course for the next several years.

In 2002, the General Assembly of the Commonwealth of Kentucky enacted a piece of legislation, expanding the Board of Control to 18 members, to include two representatives elected specifically from the non-public members of the Association. During the 2002-2003 school year, the Association made an advance payment on its long term debt which reduced the overall length of the original bond issue by more than two years. The building debt was retired early, in December 2006.

Introduction

In 1917 the principals of a few schools organized the Kentucky High School Athletic Association to regulate, develop and purify high school athletics. Since then each high school accredited by the Kentucky Department of Education has been eligible to join through application by the Principal and the approval of the local Superintendent. In 2007-2008 there were 281 members. The Association is a self-managing entity, through which the schools work cooperatively for the betterment of the program. The rules and regulations are made by the local board appointed representative selected by school personnel.

The general control is lodged with a Board of Directors, generally referred to as the Board of Control, who are elected by the member schools. The Association is operated under the direction of the Kentucky Board of Education and the State Commissioner of Education. The KHSAA Board of Control selects a Commissioner for the Association and the Commissioner hires the assistants necessary to administer the many functions of the association. The duties and authority of the Commissioner are defined by the Constitution and Bylaws. These are as binding on the Commissioner and staff as they are on the member schools.

The Association has many responsibilities, a few of the most important are to:

- (1) enforce the eligibility regulations pertaining to participants;
- (2) license, train and assign officials;
- (3) publish "The Kentucky High School Athlete" containing records of state championships in all sports, as well as reports and information for school administrators, coaches and officials;
- (4) enforce the regulations pertaining to member schools;
- (5) establish and administer plans for determining state champions in football, wrestling and baseball for boys; basketball, cross country, soccer, swimming, golf, tennis, track for both boys and girls; also volleyball and fast and slow pitch softball for girls.
- (6) Monitor Title IX compliance

Authority

The KHSAA is the designated agency of the Kentucky Board of Education as per Kentucky Administrative Regulation 702 KAR 7:065. This designation and subsequent regulations have developed since the late 1970s when it was determined that the ultimate jurisdiction for all scholastic related programs was under the authority of the Kentucky Board of Education.

STRATEGIC PLANNING PROCESS

To prepare the original plan, the members of the Board of Control and the Commissioner developed the six main goals for the Association. After consideration, the goals were adopted by the Board of Control.

VALUES, MISSIONS AND GOALS

The visionary process which the Board has undertaken over the last few years has taken the form of nine values, a mission statement and motto, and six goals for the Board and the Association. Values must be the basis for the Association philosophy and are the building blocks for the future.

The ten values are:

1. The opportunity for participation for all student athletes.
2. Strong leadership at all levels within the association.
3. Education and the role of athletics in that process.
4. Sportsmanship and citizenship.
5. Quality of the total program.
6. Integrity of the membership.
7. Professionalism and efficiency within the organization.
8. Fairness and consistency as it relates to the enforcement of rules.
9. Accountability of the student athlete.
- 10 Preservation of the heritage of interscholastic athletics.

The mission statement reflects the perspective which the Board and staff uses to guide future actions and is as follows:

The KHSAA shall establish and deliver the highest quality interscholastic athletic programs and activities in an efficient manner which emphasizes sportsmanship and integrity and enhances the education of the student-athlete.

The six goals for the Association are:

- Goal 7.0 – Evaluate the composition and operations of the Board of Control and communication systems to ensure inclusion of the membership.

PLAN STRUCTURE

In addition to the goals outlined above, there are two principal elements in the parts of the strategic plan:

Strategies - These are areas of emphasis for the Association's efforts, which are the areas of greatest importance for overcoming any weaknesses and capitalizing on strengths. The strategies reflect an awareness of the association's current situation and an appreciation for the need for improvement for the future.

Tactics - Tactics are specific activities suggested which support each of the strategies. For each of the tactics, implementations have been identified which allow for the fulfillment of the objective.

The strategies for the Association are linked by a desire to do what is best for all of the student-athletes in the state.

GOAL 1.0- Continue current successful strategies that maintain and ensure financial stability for the KHSAA.

Strategy 1.1- Pursue an aggressive fund raising and promotional strategy seeking additional ancillary revenue for the Association while protecting existing programs.
