Standard 4 - Human Resource Leadership:

The superintendent ensures the district is a professional learning community with processes and systems in place that result in recruitment, induction, support, evaluation, development and retention of high-performing, diverse staff. The superintendent uses distributed leadership to support learning and teaching, plans professional development, and engages in district leadership succession planning.

C. HR Functions-Ensures processes for hiring, inducting and mentoring new teachers, new school executives, and other staff that result in the recruitment and retention of highly qualified and diverse personnel; develops appropriate succession plans for key district roles; and places staff in strategically effective positions; develops and implements a hiring policy that intentionally includes effective dispositions of all personnel as the core selection element (human elements).

1. Two examples are the EXCITE Team lead by Instructional Chief, Davida Marson. This team serve as mentors, meet, plan and share best practice and innovative strategies monthly. The EXCITE or Experts,

eXceptional, Change Agents, Innovative Leaders, Trustworthy Colleagues, and Explorers Team then shares the strategies within their own schools with teachers.

2. Another example is the New Teacher Cohort lead by Instructional Chief, Rachel Crider. Meeting topics and professional development planned are best practices and strategies in curriculum, instruction and assessment to help our new teaching team learn and grow for their students. Additionally, the cohort provides networking and support as a group.

F. Evaluation-Ensures that all staff is evaluated in a fair and equitable manner and that the results of evaluations are used to improve performance; holds high standards for performance and takes necessary personnel actions to ensure effective school operations.

1. [KRS. 156.557](#) requires all school district administrators having the responsibility of evaluating certified personnel to be trained, tested, and approved in the proper techniques for effectively evaluating certified school employees.

2. Floyd County Schools has a Certified Employee Evaluation Plan (CEP) with EVALUATION PROCEDURES. The purpose of the certified employee evaluation plan is to help teachers, other professionals, principals, assistant principals, and district level administrators strengthen and improve their level of performance and effectiveness. We strive to create a safe, supportive environment that is conducive to optimal student learning. This goal will be achieved through the process of systematic efforts based on the shared responsibility of the evaluator and the evaluatee in a setting of mutual understanding, respect, and trust.

1. Professional growth plans were reviewed together in Sept. and formative evaluation meetings occurring by Dec. 15th annually.

1. Standard 4 - Human Resource Leadership: The superintendent ensures the district is a professional learning community with processes and systems in place that result in recruitment, induction, support, evaluation, development and retention of high-performing, diverse staff. The superintendent uses distributed leadership to support learning and teaching, plans professional development, and engages in district leadership succession planning.

2. HR Functions-Ensures processes for hiring, inducting and mentoring new teachers, new school executives, and other staff that result in the recruitment and retention of highly qualified and diverse personnel; develops appropriate succession plans for key district roles; and places staff in strategically effective positions; develops and implements a hiring policy that intentionally includes effective dispositions of all personnel as the core selection element (human elements)

3. Evaluation-Ensures that all staff is evaluated in a fair and equitable manner and that the results of evaluations are used to improve performance; holds high standards for performance and takes necessary personnel actions to ensure effective school operations
